

Mountaineers Ready; Black Bears Meet R-

Mountaineers Have Two On Injured List

Rainy weather forced the Mountaineers of Waynesville Township High School into the gym this afternoon as they tapered off four days of practice in preparation for their encounter with Sylva tomorrow night at Sylva.

Two men are on the doubtful list with minor injuries. End Wilburn Davis has a bad knee sustained in practice Monday, and guard Wayne Kelly may not see action tomorrow night because of a charley horse.

The lineup is highly tentative, said Coach C. E. Weatherby, but will be very similar to the one that fought Valdese to a 6 to 6 tie in the opening game here last Saturday. Terry and Carroll Swanger, J. C. DeWeese and Beauford Gilliland are expected to be in the backfield along with Gerald Ross. The line will probably have Jimmy Davis, Harold McClure, Bobby Kuykendall, Scratch Inman, Roger Matney, Manuel Hooper or Bobby McClure, and Teddy Owen.

Coach Weatherby had little to say about the Valdese game. "I told you they were good," he remarked, "before the game started. Our team showed good possibilities, but it was a little hard to know what was going on with those white jerseys."

Next week the Mountaineers play host to the Bearcats of Lenoir. It is expected that the famous Lenoir band under the direction of Col. Harper will accompany the team. On Sept. 28, the Mountaineers get a rest before their first game with Canton on Oct. 5th.

The nation's 1951 rye production is estimated at 24,000,000 bushels, about 6,000,000 under the 10-year average but nearly 1,000,000 above last year.

SPORTS in BRIEF

By HANK MESSICK

OUR FIRST experience with the way Waynesville supports the Mountaineers came last Saturday night. The crowd was impressive; the game was exciting; the weather was near perfect. Only thing that marred our pleasure was the fact that we had to write all the time we weren't trying to figure out who the guy in the white jersey who had stopped that fellow was.

THE GAME also provided a contrast in pre-contest attitudes of coaches. Mr. Weatherby was grim, hurried and worried. He, of course, had much more than just his team to think about. Mr. Barger, on the other hand, leaned back against the bus in a very relaxed fashion, grinned broadly when asked about his team and remarked, "They're lousy." Valdese, in our opinion, was badly under-rated by most of the crowd, and by this reporter. We dismissed Coach Weatherby's pre-game praise of the team as just professional courtesy. Well, the Mountaineers have no reason to feel ashamed.

TO TURN to football on the Southern Conference level it is interesting to note that Maryland is favored to end the season as conference champs. North Carolina, Duke and Clemson are listed as "possibilities," and "also rans" include South Carolina, N. C. State, VMI, William and Mary, George Washington, The Citadel, Richmond, Furman, Davidson and West Virginia. As an old ('47) Carolina man, I can't agree, and there's one thing I'm sure of—it won't be Duke. Ouch!

YOU BOXING fans can say goodbye to Ike Williams. He was quite a boxer in his day—when he was lightweight champion, but, like Joe Louis, he's shot his bolt as his defeat by Gil Turner Monday night shows. We hope that Ike has enough money and brains to hang up his gloves, for from here on it'll be a losing proposition for him on both counts.

TUESDAY'S doubleheader between the Browns and the Yanks was amazing in its results which further tightened the down-to-the-wire American League race. The Browns, comfortable in the cellar where they've been so long they're at home, took both games from the Yanks who were perched, uncomfortably, at the very top of the League. The victories didn't do the Browns much good, but it did the Yanks plenty of harm by putting them in second place.

BOTH THE men and women's bowling leagues are in action locally. The men play every Monday night and the ladies every Tuesday night at the Waynesville Bowling Center.

BOB BLAIK is going a long way from the scene of the family disaster. The son of the West Point coach has been admitted to Colorado College at Colorado Springs, Colorado. Despite the reputation of Colorado, the college is little known, and the football team is not a member of the Skyline Conference. Well, maybe, Bob can relax and enjoy the scenery. At Colorado Springs it is almost unsurpassed and the Rockies are certainly more enduring than any football reputation. Colorado Springs, by the way, is a quite snabby tourist resort.

WE NOTICED a gesture of good sportsmanship from Coach Weatherby down at the practice field the other day. One player, his name doesn't matter, wasn't in uniform. Weatherby demanded why. The player replied that he was supposed to play in the CDP softball tournament that afternoon. After a moment of silence, during which trees and players trembled, the coach replied: "Okay, your uniform will be here when you get back. Go ahead."

AND SPEAKING of the CDP tourney, we want to say a good deal, but a story about it is elsewhere on this page.

Hipps Fears Bears Over-Confident

Over-confidence seems to be the chief stumbling block for the Canton Black Bears as they taper off preparations today for their second game of the season against non-conference Central High of Rutherfordton - Spindale Friday night.

Last Friday the Bears revealed themselves as at least as dangerous as the team that won the conference championship last year. They

surprised everyone, themselves, when they beat Maroon Devils of Lee to 6. Charles Carpenter, basis of his two touchdowns was the individual star in a team victory in every

ASK any GMC owner about hauling performance.

For when it comes to packing home a pay load — he's got a lot of solid experience.

He knows what the right kind of horsepower can do for trucking profits. Whether he powers his load with a gasoline pickup model — or requires one of the sensational new GM-Diesel "Million-Milers" — he's right in the driver's seat for performance unexcelled by any other carrier in its class.

But he's not just "riding an engine." He'll tell you the way his GMC shows the load, year after year, is proof of perfect teamwork of axle, chassis and frame — truck-engineered to outlast anything on the roads today.

Want to profit by the same long-term benefits of GMC's truck-building experience? Let us recommend the combination of hauling performance fit your particular needs. For GMC are made in the widest variety of engine-chassis-axle combinations, 1/2 to 20 tons.
