Daily Bread

One Year

Six Months

By Rev. A. Purnell Bailey

"I Came Not To Call The Righteous But Sinners!

Bishop Booth of Vermont lived for a much shorter time than many of us would have liked, but while it lasted it was profoundly Christian.

After he died his nurse said to a friend, "I know where the Bishop is tonight. His soul has gone to The friend was too shocked to speak, but then

the nurse continued, "That's the only place he can be happy; there's such work to do there."

To be sure, that was the spirit of Jesus. He sought out hell. He hungered for sinful men.
"I Came Not To Call The Righteous, But

A Valuable Industry

The livestock show, featuring beef and dairy cattle here this week-end should attract a large crowd of interested spectators. In the first place, the cattle to be shown merit their being displayed in public. Few counties in the south have a better all-round

right here in Haywood. In the second place, the dairving and beef

cattle industry means about three million dollars per year for the farmers of this county. That is a sizable sum, and one which would be readily felt if curtailed.

been working hand-in-hand through the years to bring the two phases of our agricultural life up to its present high standard. Reaching the peak in quality, as well as

type of production as found here in Haywood is not just a "happen so." It is a result of hard work, forethought, and cooperation of all agencies combined.

Haywood county may well be proud of the achievements it has made in the cattle world, and to add to that is the fact that every effort is being made to attain even greater achievements. That is one of the reasons why the Chamber of Commerce is cooeprating with the cattlemen in sponsoring this two-day show this week-end.

The indications are that the show will be worth the cost and effort, as Haywood gets a making it at the top in the South.

An Excellent Record For Haselwood School

Patrons, and teachers of the Hazelwood relementary school are bound to be highly pleased with the rating just given that institution by the state. A rating of one does not come every day, nor to every school. Nor does it come just by making application. It only comes when deserved, and that is what the Hazelwood school has done.

The supervisor here from Raleigh making the checkup said that no school is better than the principal. A true fact, which is another way of saving that Lawrence Leatherwood has worked with his faculty of 21 in attaining an accomplishment which only one other school west of Charlotte has made. In fact, the list of such schools in that high category in the state last year only reached a total of

At a rule very little is heard from the grammar schools of the state, but after all, they are the ones that lay the educational foundation for the students. And the Hazelwood school is proving its accomplishments.

Some More Good Yet To Come

Traffic officers point out that travel on the 4-mile paved link of the Parkway at Soco Gap to Mile-High-Overlook is breaking all expectations.

The week-end travel to that mile high spot that gives an unobstructed view of the Smokies and the Balsams, is becoming one of the favorite drives of this entire area. People who make the trip are usually warm in their praise of the many scenic views it affords.

As we pointed out once before, it is impossible in mere words to accurately describe that new link in the Parkway.

Take it from us, however, "you ain't seen nothing until you get to drive all the way (11 miles) out to Heintooga." That will be the scenic drive of drives, just wait and see.

Government For The Lazy

We have come to the time in the history of the race when the man who works and saves, and who by self-denial and thrift accumulates for himself an estate that he may live in his old age an independent life and be a burden on no one, is taxed to pay for the subsistence showing of beef and dairy cattle than is found of the profligate and the spend-thrift and the waster and the loafer. We have come to a time in our history where we give allowances to people for not working. We have put a premium upon laziness, and hung up a re- ing flooded with folders from the dresser among the coaches is Beat- months. How do you think we in ward for the fellow who refuses to look after U. S. Chamber of Commerce. They tie Feathers of State himself and has waited for Uncle Sam to do The encouraging factor in both the beef it. One by one the fallacy of the old copy book and dairy industry is the steady progress maxims is being revealed. We are getting a- lars; which has been made in recent years. Farm- way from the old-fashioned idea that work is \$16.6 billion; 1939, \$39.9 billion; Duke Coach Bill Murray played his it a point to pay attention to the ers, businessmen, and cattle experts have good for man and that thrift and self-denial and frugality are virtues that should be fostered. They were good enough for poor, ignorant old-fashioned grandfather, but out of folks to thinking, but the shock is ware opener, she wasn't present place with the new day that has somehow

MIRROR OF YOUR MIND

Does human nature need improving?

Answer: Basically, no. All it needs is a chance to develop its inherent possibilities unhampered by fear and "pressure." The essential human nature in Abraham Lincoln was no different from that in Al Capone-both sought the same basic satisfactions, even though by opposite methods, and I know no evidence to prove that anyone is inclined by inborn disposition to prefer "bad" methods to "good" ones. Whether you are thinking of yourself or of your children, there is nothing in your nature or theirs that is inherently evil-all you or they need is guidance and an opportunity to

Should "criminal responsibil-

ity" be re-defined? Answer: Yes, especially in cases of incipient psychosis or insanity, writes Dr. F. M. G. Prendergast in the Medical Journal of Australia. The century-old legal rule that a person is responsible for his crimes if he "knows what he is doing and that it is wrong" cannot be applied here, since a per-(Copyright, 1951, King Features Syndicate, Inc.)

son who is mentally ill may know quite well what he is doing and himself feel that it is wrong, and yet be unable to control his actions. The law cannot deal intelligently with crimes as long as it persists in ignoring the fact that an otherwise sane sufferer from emotional disturbance may have "irresistible impulses,"

Can mental reservations block psychiatry?

Answer: Yes. As long as there is anything about which you are determined to "keep quiet," you might as well recognize that psychiatric treatment will be able to go only so far and no farther. It is hot a matter of anyone's trying to invade your privacy, but of your establishing an area in your mind in which all your most important conflicts can and will hide. A man I know who refused to tell his analyst his real name was unconsciously protecting himself from the full force of the discoveries he had made by pretending that it was not really he to whom they applied.
