...among Haywood's Greatest

ASSETS

BEEF CATTLE

AND

DAIRYING...

Down through the years this Bank has been promoting all phases of agriculture, and more especially the greater production of beef cattle and dairying. It is a source of pride that we have seen the industry grow and expand until today it is of paramount importance to our county-wide economic life.

We have not reached the peak of production in this county in either beef or dairying. Our achievements and our determination is to ever strive for greater things in this phase of our agricultural life.

The show being staged here Friday and Saturday will prove the accomplishments made in the past few years, with greater days ahead.
