HAYWOOD

It is indeed fitting that the Tobacco Harvest Festival is observed at this Thanksgiving season — and that we can give thanks for such a bountiful and profitable crop as Burley.

Haywood is indeed fortunate in having so many diversified crops which bring in cash incomes for our farmers throughout the year. These farm incomes, together with the industrial payrolls, and our tourist business, gives Haywood a well-rounded economic life.

Haywood's Tobacco Festival is the result of undivided cooperation between all agencies, and these two banks are happy to serve a county that works together for the common good of all concerned.
