Modified Pyramid

Well-cut tweed coat.

By VERA WINSTON

THE pyramid coat is still with us, but in a modified form, and as such, it is much nicer. Heather mixture tweed from Britain is the fabric used for this well-bred coat. Undersized notches lend additional interest to the oversized collar that is drapable to suit the wearer. Double seaming accentuates the triangular silhouette of the coat. A little gilet of nutria is an extra dividend that should prove of use as well as being very charming.
