Low-Down on a high-powered Performer

Let us tell you this: The Buick pictured here packs more power than you find in any other car of its size and room; and price. That's the power of Buick's newest high-compression valve-in-head eight—the F-263 Fireball Engine, that really gets miles from a gallon of gas. Add to this the fact that it tips the scales at 3817 pounds curb-side—and you begin to see why this big-powered beauty is such a nimble-footed number out on the road. But that's only Chapter I of the performance story. There's a big-car feel to the way this trim traveler covers the ground—hugs the curves—holds its course on the straightaway—smothers the bumps with its big soft-coil springs on all four wheels. There's a big-car room inside—six-passenger room—headroom, hiproom, shoulderroom, knee-room, front and back.

Come in, look it over, and we think you'll agree—it's big in everything but price. And that's where it really shines. If you've shopped around you'll know what we mean when you read the price tags, and what they include in the way of standard equipment that shows up as "extras" on so many others. Such things as an oil filter, air cleaner, vacuum booster, built-in summer ventilation are all yours at no extra charge. It's hard to believe but it's true. If you can afford a new car, you can afford this Buick at the prices we're quoting today. Better come in and look this smart buy over.

Table with pricing information for Buick models: Buick SPECIAL 2-Door, 6-Passenger Sedan MODEL 45D \$2270.13; Buick SPECIAL 4-Door, 6-Passenger Sedan MODEL 41D \$2328.13. Includes notes on optional equipment and taxes.
