

Jayvees Try To Keep Record Dry

The Waynesville Jayvees were rescheduled to meet the Christ School Jayvees Thursday afternoon in the local stadium after the heavy rain Wednesday morning forced a postponement.

It will be the last game of the season for Bill Swift's boys who are very anxious to keep their perfect record intact. It survived last week's game with the Canton Jayvees as the hillbillies scored an early touchdown and held on the rest of the way.

Frady, on the second play of the game, recovered a fumble and ran 30 yards to score. After that not much happened, with the cubs unable to get within the Waynesville 15-yard line. Several long Canton runs were cancelled by penalties.

As a result of the 7 to 0 victory, the Waynesville Jayvees are unbeaten, untied, and unscored upon. The Christ School game will be the fourth of the season.

Nears Record

Steve Trudnak, junior from Bloomsburg, Pa., star fullback for Lenoir Rhyne College at Hickory, needs only one more point to tie the scoring record for a college football player in North Carolina. His 103 points in nine games have come on 12 touchdowns and 31 extra points in 38 attempts. Lee Spears of Catawba College set the record of 104 points in 1948. Farm Bureau Rolls Up From Cellar

For the first time in many weeks the Farm Bureau moved up from the cellar of the Women's Bowling League. The shift puts Dayton Rubber on the bottom which represents the only change in league standing this week.

Welleo No. 2 is on top, followed by Welleo No. 1, Howell Motor, Stiles Office Supplies, Farm Bureau, and Dayton Rubber.

Ha Jean Yount had the individual high game, 181, and also was tops with the individual high series. Score there was 477. Howell Motor was first with high team games, scoring 802, and Welleo No. 1 was second with 764.

Some promise of future change is implied in the schedule for next week which puts Welleo No. 1 against Welleo No. 2. The Farm Bureau plays Stiles Office Supplies, and Howell Motor play Dayton Rubber.

"With the draft, we get the extremely brilliant persons, as well as the average or slightly below average persons," one officer explained. "These 'brilliant' persons usually do not enlist in the army as a private."

Dyed Dove Didn't Die

TALLAHASSEE, Fla. — (AP) — Multi-colored mourning doves will brighten the forest and fields of Southeastern United States this hunting season.

Came departments of five Southeastern states are trapping the birds, dyeing and banding them and then releasing them. It's part of a study of their migratory habits.

Florida started the idea last year when its game department dyed scores of doves. The experiment yielded so much information about the birds' flight patterns that four other states are joining in the project this year. The dyeing does the birds no harm and has no effect on their breeding or feeding habits.
