

### Carolina Yearbook Queen

Miss Sally Trowbridge, 20, University of North Carolina Junior, is crowned Queen of the Yackety Yack beauty court at ceremony at Chapel Hill. The Yackety Yack is the Tar Heel yearbook. Crowning Miss Trowbridge is Henry Clay Johnson, Jr., the publication's business manager. The beauty queen is a sociology major and a pledge of the Delta Delta Delta sorority. She plans to do social work when she graduates. (AP Photo.)

### Beg Pardon

Mrs. Carl Medford, Mrs. Henry Garner, and Mrs. Edgar Burnette were identified erroneously in Monday's edition of The Mountaineer as members of the county community development program. The three women, along with Mrs. Herbert Platt, vice-president, are newly elected officers of the county home demonstration council.

Retiring officers of the council are: Mrs. Paul Hyatt, president; Mrs. Henry Francis, vice-president; Mrs. Jimmy Williams, secretary-treasurer, and Mrs. Otis Cole, publicity chairman.

Mrs. Calvin Gatz of Waynesville served as one of the judges, along with Miss Nell Kennett, at the armory exhibition of home demonstration work. Mrs. Mamie Sue Evans, Buncombe County agent, was unable to be here in time to serve as a judge.

### Legion Asking Sunday Be Set As Day Of Mourning

Louis F. Parker, Commander of the North Carolina Department, American Legion, today asked the 400 Legion posts and 51,000 Legionnaires in North Carolina to observe Sunday, November 25, as a Day of Mourning in the state for Korean war dead executed by the Communists while prisoners-of-war.

Parker's letter to district and post commanders urged that legion members take lead in contacting individual ministers of all faiths to have 30 seconds of silence in their services Sunday and congregational prayers for the speedy end of the Korean conflict.

### LAFF-A-DAY

"No, my husband is not an after-dinner speaker—but he does a lot of grumbling DURING it!"

**Northern Lights**  
Do the Northern Lights have any effect on the weather? No. The northern lights, or aurora borealis, appear at heights of 80 miles or more above the surface of the Earth, while the highest clouds, in regions where the aurora appears, are never more than about six miles high. The aurora, therefore, is far above the lower and denser regions of the atmosphere where weather is determined.

**Patrol Usage**  
Patrol, transport, and other coal usage in the first six months of the year can be used as a guide for the year. The coal patrol is a good guide for the year, especially in the first six months. The coal patrol is a good guide for the year, especially in the first six months.
