All work is voluntary and cooperation has been good. Donations for the project are being made to Van Deaver, treasurer of the building fund.

What's In A Name?

ATLANTA (AP)—The United States Marine Corps has invited Gene Van Buskirk and Arden Smith to enlist, hinting that being a Marine is better than being drafted.

But both girls, who recently graduated from Atlanta's Henry Grady High School declined with thanks after receiving promotional material from the Marine Recruiters.

Arden reported she was "sort of shocked" when she saw the envelopes marked "official business" but quickly "figured it was just another case of my name being mistaken for that of a man." She said she once received an offer for a free trial of an electric razor.

Gene said she has received many letters addressed "Mr. Gene Van Buskirk," principally from colleges.

The girls ordinarily don't mind, but both said their confusing names did cause them to miss out on several gifts which Atlanta business firms sent to other girl graduates.

Catholic Anniversary

RUTLAND, Vt., (AP)—The 100th anniversary of the foundation of the Burlington Diocese of the Roman Catholic Church was celebrated here recently.

A cast of nearly 3000 from Catholic parishes throughout the state reviewed in dramatic form highlights of the Catholic heritage in the Green Mountain state from the discovery of Lake Champlain by a Catholic explorer to the establishment of rural parishes within the past year.

Indian Train Dispute

SAFFORD, Ariz. (AP)—The people of 10 eastern Arizona towns are battling to keep the historic "Gila Tomahawk" running. The Tomahawk is the only passenger train between Globe and Bowie, Ariz.

The Arizona Corporation Commission granted the request of the Southern Pacific Co. to discontinue the passenger service. Eastern Arizonans say they will go to court unless the commission reconsiders.

Apache Indians are especially anxious to keep the Tomahawk chugging across their reservation. Under a long-standing agreement, they ride free within the boundaries of their tribal area.

to purchase excellent exemplars of Southern Appalachian crafts, but also to see the craftsmen producing them. They are glad to explain their work and they make willing models for photographers.

School Cat Knows Job

VERO BEACH, Fla. (AP)—One of the seven pupils who received a perfect attendance record at the Winter Meach Elementary School isn't happy because school is out.

He is Toby, a cat that began attending classes the first day last September, and not only was present every day, but also attended PTA meetings and all other school functions.

Not only did Toby show up for flag raising every morning, enter school through the private entrance the teacher, Mrs. Meta Chesser, cut for him in a screen door, and occupy a front row chair

at all PTA meetings, he once took a part in an operetta. Every time the girl playing Miss Muffett got off her tuffet, Toby took over.

If Toby decides to hang around school during the summer vacation, pupils have volunteered to bring him a daily ration of milk.

But just to let the record show he doesn't have to rely on charity, every few days during the school term Toby showed up with a young rabbit which he carefully left at the door of the school cafeteria.

It is believed that the balloon was invented in France in 1782.
