

IKE'S AIDE CHEERED BY CROWD

IN GOOD SPIRITS is Walter Robertson (right), trouble-shooter for President Eisenhower in Korea, as he leaves the longest talk he has yet held with South Korean President Syngman Rhee. With him is U. S. Ambassador Robert Murphy. In addition to reported progress made in his negotiations with Dr. Rhee, the Assistant Secretary of State was cheered by the friendly reception given him by civilians and children in Seoul, the South Korean capital. (International)

White Oak CDP Raises Funds For 4-H Tour

By MRS. GEORGE BORING
Community Reporter

At the White Oak Community Development meeting Saturday night, at the Community House, the entire program was arranged to raise the sixty dollars needed to send Miss Patsy Davis, daughter of Mr. and Mrs. Robert Davis, to the 4-H Exchange Tour to Massachusetts as a representative from this community. Ninety-one home folks and guests enjoyed the "pie auction," "cake walks," "guess cake," and "fish pond." The amount of money needed was cleared and every one seemed to have fun doing it. Teague Williams, chairman, acted as auctioneer and Mrs. George Boring as cashier. Mrs. Nell Reese, a guest, won the guess cake which was baked by Mrs. Rowe Ledford.

Music for the event was furnished by a three piece string band which really could make music. Billy Kirkpatrick played the guitar, Raymond Setzer the guitar, and Calvin Messer was the fiddler, and they also sang several hill-billy selections. One feature that was enjoyed was the buck-and-wing and clog dancing by Elbert Phillips of this community and Tom

Killian of Maggie.

Guests at this meeting were: Mr. and Mrs. Paul Reese of St. Petersburg, Fla., who are visiting Mr. and Mrs. George Boring; Mrs. Mildred McGinniss of Washington, D. C., and Miss Anna Louise Alexander of Washington, visiting Mrs. McGinniss' parents Mr. and Mrs. Amos Hunter; Tom Killian, Raymond Setzer, and Calvin Messer of Maggie community; Mrs. Susie Oliphant of the Fines Creek Community.

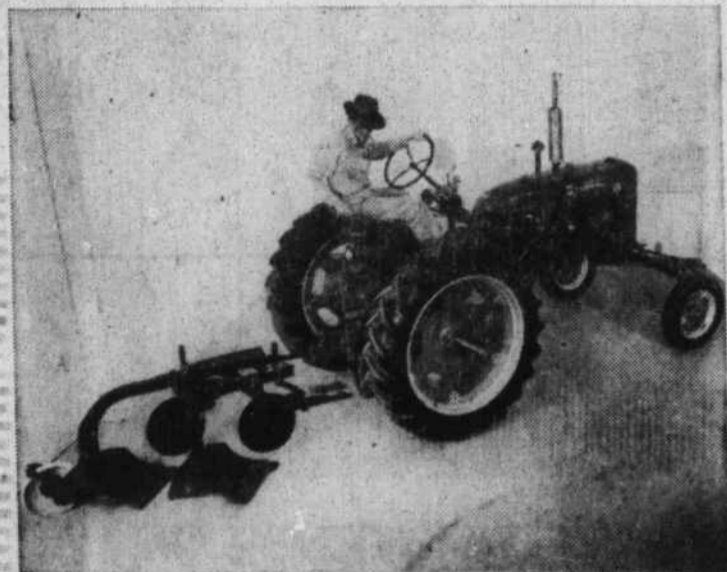

All the ladies donating cakes and pies are to be congratulated for a job well done.

Chairman Teague Williams presided at the meeting and read the scripture with France Teague leading in prayer. Most of the business was disposed of and announcement was made that Allen's Creek Community will visit White Oak Community on August 13; then on August 29, White Oak Community will be the guests of Cruso Community at Camp Hope. Group singing was enjoyed.

The next regular meeting will be August 1, at the Community House.

It has been estimated that expanding U. S. populations will require available acreage in the nation to produce 28 per cent more by 1975 in order to maintain present standards.

NEW FARMALL FAST-HITCH TO BE SHOWN AT LEATHERWOOD FARM

Here's how the new Farmall Fast-Hitch works; the farmer just backs up to the implement . . . the two coupling beams on the implement slip into the Fast-Hitch sockets on the tractor, and are locked instantly and automatically—to uncouple, just lift two latches. The farmer saves a great deal of time and all of the hard work usually required in hitching.

Coping With A Shiny Nose

By VIVIAN BROWN

AP Newsfeatures Beauty Editor

Is my face shiny? That's a question women have asked other women since the days of Cleopatra, we presume.

And today the situation hasn't changed a bit. One beauty expert Hollywood's Max Factor, Jr., says ovely movie stars have this problem too. Only the ladies of cinema and use a trick to master the basic strategy of this shine-fighting. He offers these Hollywood pointers to keep that shine at bay.

1. Strip your face of every trace

of cleansing cream before you apply make-up, using either skin-freshener or astringent. The difference between the two depends on whether your skin is dry or oily. (During the summer both types of skins can ooze out plenty of oil, according to Factor.)

2. While removing all traces of oil from your face make sure your cotton pad, dampened by skin-freshener or astringent, goes around the curve of nostrils and up to the edge of the eye openings. These are the little areas which can harbor small traces of

cream after cleansing, developing into larger areas of shine as your skin warms up with a rising thermometer during the day.

3. If you add a blush to your cheeks during warm weather use dry rouge, not cream rouge. The dry rouge will put a convincing blush on your cheeks and is less likely to explode into a shine.

4. The more dull-surfaced your make-up foundation is, the quicker your powder puff will kill a little shine when you notice it. But if you puff on loose powder, the entire face must be retouched.

5. If you need to blot up a shine in only one area as say the nose a creamy cake or powder in compact form might do the

trick. This cake powder gives mat-like touch-ups to the combination dry and oily skin.
6. Powder cakes which combine foundation and face powder in your own skin tint should give you a touch up which shouldn't cake, dry, or give the appearance of being built up even if skin acids do get a whack at your make-up.
