

There are many things for which we should be thankful at this Labor Day season —

First, of course, is the Armistice in Korea. And even though it is an uneasy peace, we are truly thankful that the fighting has stopped, and we sincerely hope that a satisfactory settlement will be reached for a lasting peace.

Closer home, we of Haywood County, have many things for which we are grateful — Our people have enjoyed a prosperous year . . . our farms have produced well . . . our industries have thrived, and our entire population has profited from their labors. With a gross income last year of more than \$44,000,000.00, the people of Haywood County have set a record of total earnings during this twelve month period.

The fine spirit of cooperation, understanding and mutual support which exists among our neighbors is largely responsible for these accomplishments — And as we approach this Labor Day of 1953, we are positive that so long as this spirit of cooperation prevails we will continue to have a thriving community and a happy people.
