MORE ABOUT
Large Crowd
 (Continued from Page 1)

bers of the Canton Kiwanis Club. More than 1,000 were on hand Saturday night in the Canton stadium as Miss Carolyn Campbell, 16-year-old Canton high school junior was named queen of the Labor Day, and Leonard B. Holder, was named king.

A crowd of 500 saw the formal coronation crowning, and participated in the Labor Day Ball held at Camp Hope on Saturday night.

Miss Campbell was awarded a \$200 scholarship to Brenau College, a diamond ring, and a loving cup, while the runner-up, Miss Barbara Hightower, received a loving cup and wrist watch.

The annual pre-Labor Day singing convention was held at Canton High School stadium.

Hundreds of followers of hymns and spirituals gathered for the song fest. Yoder Clary, chairman of this Labor Day event, was master of ceremonies.

Union religious services, conducted at the high school stadium drew a full attendance.

The Rev. Horace L. Smith, pastor of the Canton First Baptist Church, was chairman of arrangements. The Rev. J. G. Goodwin, Jr., pastor of the Clyde Baptist Church, was the principal speaker, and Jack Medford directed the chorus composed of choir members from many local churches.

J. Paul Murry general chairman of the annual fete, and Woody Robertson, vice-general chairman, were well pleased with the program and crowds.

Rabies
 (Continued from Page 1)

stroyed. As of this morning 10 people, mostly children, of Allen's Creek are continuing their 21-day treatment against rabies after four had been bitten by the rabid dog and six others had come into contact with the dog.

The quarantine will be for a period of 21 days starting today and concluding September 28.

Four clinics for rabies shots for animals are being set up in this area, and all owners of dogs not inoculated within the past 12 months are requested to bring them to one of the clinics for vaccination at the minimum cost of \$1.00. The price otherwise is \$2.00. All dogs must be taken to a clinic on a leash.

Clinics will be held as follows: Hazelwood School—Tuesday, 4 to 5 p.m. Waynesville Elementary School—Tuesday, 5 to 6 p.m. Allen's Grocery in Ninevah—Wednesday, 11 to 12 a.m. East Waynesville School—Wednesday, 4 to 5 p.m.

vested in life insurance have increased 63 percent since World War II, the premiums paid last year represented only 3.6 percent of aggregate disposable personal income, compared to 4.9 percent then.

In Haywood County the increase in ownership of life insurance has been noted in all categories—ordinary insurance, group and industrial—with ordinary maintaining the largest volume although group recorded the biggest percentage gain. The local breakdown shows 56 percent of the volume in ordinary life policies.

Women's ownership of life insurance has been sharply increased in recent years. They now hold almost one-fifth of the total, with coverage of children amounting to another seven percent.

Men, however, remain the great body of policy holders, accounting for nearly 75 percent of the total.

Dr. Allen
 (Continued from Page 1)

own, and pushed them to completion. Among them was to replace the old Cherokee with Cherokee II, build new roads, install opera seats throughout the auditorium, erect new quarters for servants back of the Terrace, a new parking area back of the Terrace, and to have plotted, the area across the Lake into streets and lots for sale. The timber on the tract was sold to pay for much of the surveying and cutting the property into building sites.

Dr. Allen has traveled throughout the South in behalf of the Assembly, and has seen it grow to draw an attendance of 30,000 per season.

He has been active in the Rotary Club here, and has preached in a large number of churches, of several denominations throughout the county.

Tentative plans are for Dr. and Mrs. Allen to remain at the Lake until the conference appointment in October.

Odd Bones
 Fossil hunters dug up near Manchester, Ohio, the remains of giant "sea scorpions," some of them six feet long, locked in volcanic ash in the bed of the ancient salt sea which once covered Ohio. A pair of fossilized dinosaur eggs were discovered in southwest Tanganyika, first such ever found in Africa.

the county, was almost self-supporting in its second year.

Principal talk was by Paul Davis, secretary of the local Commission. He presented the entire program using the drawings, pla's, lay-

outs and plans as drawn up by C. M. Graves, engineer of Atlanta.

Charles Ray, as chairman, made a few remarks as to the work the Commission has accomplished and plans to do, and Jonathan Woody, head of the Finance Committee, touched on the tentative plan for financing the project.

This was one of the series of

meetings for Recreation Commission members to go before civic groups and clubs in order to educate the public as much as possible on the proposed center.

A mysterious substance called rhodopsin in the retina of the eye is manufactured in the chemical processes of the body from vitamin A.

Brevard Festival Subject
Of Feature Article
In Cincinnati Paper

The Brevard Music Festival was reported in the Sunday Music and Theater section of the August 30 Cincinnati Enquirer in a special feature article by Mrs. Christine

M. Baermann. Dealing mainly with the many Cincinnati personalities that are connected with the Brevard Festival and Camp either as teachers, orchestra members or patrons, the article sketched briefly the scope of the various programs, and the national importance of the project.

Mrs. Baermann, wife of Walter

The giant squid, a carnivorous animal may weigh up to 30 tons. It is something like an octopus, though it has ten arms instead of eight.

Baermann, designer, now Waynesville, is a former resident of Cincinnati. She is a staff member on the Waynesville Mountaineer.
