## **Teacher Flies High**

MONTREAL (AP) — Peggy Lawrence of Montreal is the only woman flying instructor in Quebec Province.

The unusaual angle is that Miss Lawrence, now 20, had never been in a plane until she took her first lesson in flying when she was 17

With more than 300 hours aloft, she has had her instructor's license for two months. Last year she qualified for a commercial license.

Now a part-time instructor, Miss Lawrence worked as a grease monkey and dispatcher to pay for her year's instruction and flies regularly three nights a week and during weekends.

Although qualified to handle a big air freighter or passenger plane, she never had a car driver's license.

The daughter of Rev. and Mrs. Kenneth Lawrence, she hopes that one day airline companies will show no hesitation in hiring girl pilots
