Farm Bureau Is Aiding In Sale Of Beef Cattle

The first agreement for the sale of beef under Public Law 480 has been reached with Israel and came as a tremendous stimulus to the over-supplied U. S. livestock market last week.

Israel, paying for the beef with its own currency, will purchase 40 million pounds of beef worth some \$10 million. The poundage is roughly equivalent to 50,000 head of cattle on U. S. farms.

The sale which is the result of planning done by former Haywood County Agent, Jack Lynn, now legislative representative of the American Farm Bureau in Washington, D. C., will be of immense help to the beef farmer. Secretary of Agriculture Benson said: "This agreement comes at an especially opportune time from the standpoint of market conditions."

French Twist

PARISIPPANY, N. J. (AP) — Note to teachers:

If you are having trouble getting the attention of your charges in their native tongue, try a foreign language.

Miss Myrna Bason, a fourth grade teacher at the Lake Hiawatha School, says her boys and girls snap to it when she speaks French.

With the proper inflection, she points out, "taisez-vous" and "assez-vous" are more effective than "keep quiet" and "sit down."

Smaller Chickens

GRAND RAPIDS (AP) — Poultry specialist Edward F. Godfrey says chickens who make breakfast eggs in future years probably will weigh less than four pounds each — not five to seven pounds like the ones today.

Godfrey told a poultry producers' meeting that feed will be more efficient and hens will consequently be smaller and able to lay 240 eggs annually.
