### Examiner Cites Penalties Involved In Driving Laws

By THOMAS L. LENTZ Driving License Examiner

People are seldom familiar with the penalties of the driver's license law, therefore several are quoted for their benefit.

1. Driving Without a License: a. Driving without a license, never having had a license or having a license expired more than a year:

(1) First and second offenses: Fine of not less than \$25 or imprisonment of not less than 30 days, or both such fine and imprisonment in the discretion of the court.

(2) Third and subsequent offenses: Fine of not less than \$50 or imprisonment of not less than 30 days, or both such fine and imprisonment in the discretion of the court.

b. Driving with a license expired less than one year:

(1) First offense: Punishment in the discretion of the court.

(2) Second offense: Fine of not less than \$25 or imprisonment for not less than 30 days, or both such fine and imprisonment in the discretion of the court.

(3) Third and subsequent offenses: Fine of not less than \$50 or imprisonment for not less than 30 days, or both such fine and imprisonment in the discretion of the court.

c. Driving with an operator's or chauffeur's license expired less than 30 days:

(1) If a person produces in court at the time of trial on a charge of driving without a license both the expired license and a new license issued within 30 days of the expiration of the expired license, which new license would have been a defense to the charge had it been issued prior to the alleged offense. No conviction. To take advantage of this provision a driver must actually get re-licensed within 30 days after the expiration of his old license, and he must actually produce the new license in court.

Furthermore, the new license must be one which would have been a defense to the charge of driving without a license if he had obtained it prior to the time that he was arrested or cited. For example: If the new license restricted the driver to glasses and he was not wearing glasses at the time he was charged with driving without a license, the new license would not be a defense.

(2) If a person is unable to produce the license as required to avail himself of the "grace-period" provision, he is punishable as set out in paragraphs "a" and "b" above.

2. Permitting Another to Drive. Any person who authorizes or knowingly permits a motor vehicle owned by him or under his control to be driven by any person who has no legal right to drive it is in violation of the driver's license act and is guilty of a misdemeanor. He may be punished by a fine of not more than \$500 or by imprisonment for not more than six months.

3. Employing an Unlicensed Chauffeur. It is unlawful for any person to employ a chauffeur to operate a motor vehicle on the highways of this state who is not licensed under the provisions of the law. The penalty is a fine of not more than

### Specialist Says Landscaping Requires Careful Planning

Landscaping should be carried out according to a plan—not haphazardly and in a piecemeal manner, John Harris, N. C. State College landscaping specialist, asserted at a meeting at the courthouse last week.

At the meeting, Mr. Harris discussed establishing and maintaining lawns, planting and care of shrubs, arrangement of farm buildings, landscape planning, and locating driveways, walks, windbreaks, and hedges.

In regard to landscaping planning, Mr. Harris explained how to make detailed drawings and take pictures of buildings and grounds.

The specialist said that he will return to Haywood County March 21 to go over landscape plans and visit several farms where families have asked for assistance with

landscaping. Mr. Harris added that others who want information on landscaping can call at the county agent's office for booklets and pamphlets on the subject.
