WASHING HINTS

Exacting "recipes" for the use of the automatic washer are just as important for good washing results as they are for good cooking results with modern ranges. The "feel and dump" methods are as out-of-style for laundering as the "handful of flour" or "butter the size of an egg" measurements are for cake making. With the right know-how, almost anything that is washable can be washed in an automatic washer. Different fabrics, colors, types of soil, water conditions and temperature, other washing aids, and the particular washer, make up the recipes.

Water temperatures need careful guarding. For the greater share of the washing, the hotter the water the better, and best at 160 degrees. The temperature will depend upon the water heater. The HOT dial setting on the washer allows the water to come into the tub directly from the hot water tank. Research has shown that at 160° the white clothes are cleaner, whiter, and more sanitary than when washed at lower temperatures, and little or no bleach will be necessary. Some

washers have a MEDIUM dial setting, which mixes hot and cold water to give about 120°. WARM setting is around 100°.

The size of the load can make for good or poor results. Overloading so that the clothes cannot move freely through the water means that soil cannot be removed satisfactorily. When large sheets and other items are to be washed, it is better to use only two—or possibly three—with smaller items, than to load the machine with all big pieces.

Detergent quantities in right proportions are vital for best results. Washer tubs differ in size. Be sure to know the capacity of the tub. If the direction book does not indicate, ask your dealer. For each ten gallons of wash water, use from three-eighths to one-half cup of low-sudsing detergent. The water hardness in this area is low, thus the amount of detergent used is small.

Exercise care in the use of bleaches. They are needed only when stain cannot be removed by hot water. Bluings are optional bleaches but cannot cover up poor

Personals

Mrs. Marion Barr Hyatt has returned to her home on the Eagles Nest Road after spending several months with her son, Wayne Hyatt, in Alcoa, Tenn.

Mr. and Mrs. Lachlan Hyatt of Spartanburg, S. C., and their children spent the weekend with the former's mother, Mrs. W. A. Hyatt.

Dr. and Mrs. J. E. Fender and their small son, Jimmy, are spending this week in Washington, D. C. where Dr. Fender is attending a meeting of physicians.

Mrs. J. M. Long left Saturday with her brother and sister-in-law, Mr. and Mrs. Charles Weaver of Detroit, Michigan, to spend ten days in Cuba.

Mrs. G. C. Platt has returned from Frostproof, Florida where she visited her son-in-law and daughter, Mr. and Mrs. Paul Ratone.

Mrs. W. T. Denton left Thursday for Lexington, Va. where she will visit her grandson and his wife, Mr. and Mrs. Bill Badgett. She made the trip to Lexington with her daughter, Mrs. Charles Badgett of Knoxville.

Mr. and Mrs. Hugh C. Palmer are in Riverside, California where they expect to spend two months.

Dr. and Mrs. R. S. Roberson and their children, Agnes Jane and LeRoy, left Friday for Washington, D. C. where they will spend a week. Dr. Roberson will attend the national meeting of the Academy of General Practice.

Pre-School Clinics Slated Thursday In Canton Area

Pre-school clinics will be held at two schools in the Canton area Thursday—one at Morning Star at 9 a.m. and another at Reynolds at 12:30 p.m.

The annual pre-school clinic program got under way in Haywood County last week when children starting to school this fall were examined at Rock Hill and Maggie Wednesday and at Lake Junaluska Friday.

Parents are urged to accompany their children to the clinics where the youngsters are examined by county physicians, and given the necessary inoculations.

PTA groups at the schools and home demonstration clubs are assisting at the clinics to entertain children and acquaint them with the schools they will enter.

washing results. If used, they should be added to the wash water, not the rinse. Starching, too, is optional, but starched items stay crisp and fresh longer than unstarched ones and the soil is removed more readily. Follow starch manufacturer's direction for use.

There are about 130,000 toy-train hobbyists in the United States, says the National Geographic Society.

MISS LAURA WOODY, left, of Waynesville and Miss Edwina Sykes of Smithfield, Va., students at Randolph-Macon Woman's College in Lynchburg, Va., study one of the pieces Miss Woody entered

in the art minors' exhibit at the college. A senior, Miss Woody is the daughter of Mr. and Mrs. Jonathan Woody.

DAR Chapter Hears Reports Of State Meet

Reports of the recent state meeting held in Asheville were given at a regular meeting of the Dorcas Bell Love Chapter, Daughters of the American Revolution, Saturday afternoon in the home of Mrs. R. L. Prevost.

Making the reports were Mrs. J. H. Howell, Mrs. R. N. Barber, Mrs. W. F. Swift, Mrs. J. W. Killian, and Mrs. Hugh Leach.

Mrs. Killian, chairman of citizenship, announced that Miss Patsy Leatherwood, Waynesville High School senior, received honorable mention for her scrap book which was entered in the State Good Citizenship Contest.

Miss Catherine Colbourn, chairman of National Defense, spoke of the efforts the DAR is making toward national defense.

A memorial service was conducted by Mrs. Clyde H. Kay for Mrs. James R. Boyd, former regent and active member of the chapter, who died last week, and for Mrs. R. L. Noland, who died recently in her home in Waynesboro, Va.

Mrs. James L. Elwood presided.

Betty Owen Hosts Thirteenth Birthday Party

Betty Owen entertained members of her dancing class at a party Friday evening in the reception rooms of the Owen-Smith Clinic. The occasion was the thirteenth birthday of the youthful hostess.

The guests danced and played games, after which refreshments were served. Betty was assisted by her parents, Dr. and Mrs. Boyd Owen, Mr. and Mrs. J. H. Howell, and Mr. and Mrs. Bruce Alexander.

Bishop and Mrs. Ivan Lee Holt of St. Louis, Mo. are arriving today for a visit with Dr. and Mrs. Elmer T. Clark at their home at Lake Junaluska.

Two Clyde Men Now In Training In Colorado

FORT CARSON, Colo. — Two soldiers from Clyde, Privates William B. Hill and James B. Snyder, are receiving basic combat training with the 8th Infantry Division at Fort Carson, Colo.

The division is preparing for its move to Europe next fall as part of Operation Gyroscope.

Hill, 20, son of Mr. and Mrs. C. L. Hill, Route 1, is training with Battery C of the division's 23rd Anti-Aircraft Artillery Battalion.

Snyder is the son of Mr. and Mrs. James D. Snyder, Route 1. The 19-year-old soldier is training with Company I of the division's 13th Infantry Regiment. Hill and Snyder, 1955 graduates of Clyde High School, entered the Army last month.

Eye experts say that most people have only about 1 per cent of what they see conveyed to their brains, a condition which can be remedied by training.

Robert Howell Dies At 80

Funeral services were held Saturday afternoon in the chapel of Garrett Funeral Home for Robert C. Howell, 80, of Waynesville, who died Friday in the hospital here following a long illness.

The Rev. O. J. Beck officiated and burial was in Green Hill Cemetery.

Pallbearers were Ned Moody, Robert Brown, Guy Moody, Joe Garrett, and Harry Howell.

Born in Haywood County, Howell lived 51 years in Jackson County, returning to Haywood last November. He was a son of the late Mark and Elizabeth McGee Howell.

He was a retired farmer and a former member of the board of commissioners of Jackson County. He was a member of Shoal Creek Baptist Church near Whittier.

Surviving are the wife, Mrs. Laura Moody Howell of Waynesville; a daughter, Miss Sue Howell of Waynesville; three brothers, Asbury and Dock Howell of Waynesville and Horace Howell of Asheville; and four sisters, Mrs. Coral Blaylock of Canton, Mrs. Ace Allison of Waynesville, Mrs. J. R. Williams of St. Petersburg, Fla., and Mrs. Herman Palmer of Knoxville, Tenn.

Most folks don't give much thought to the TV Antenna unless the wind blows it down. And if the wind does blow it down and its regular service at the more clear and distinct picture that they receive. After all, antenna installations have improved greatly in the last four and five years just as the television receiver has. Still, it is surprising how many people will buy their second and even third set without considering antenna improvement. Of course, some of the old antennas are capable of pulling a signal for a fair picture, but in many cases we find that the signal is weak and the picture quality is not at its best.

Also, conditions change localities with construction of high buildings and its varied electrical apparatus. Sometimes, strong winds shift antenna south of position, and corrosion of steel equipment will cause signal deficiencies.

We at NELSON'S TELEVISION SERVICE have satisfied customers with additional stations after checking and replacing all or part of the antenna system. Phone GL 6-6661 and let us give you further information about the importance of your antenna.

Here's how to save clothing DOLLARS

Some of the most smartly dressed men you know are smart about money too. They save clothing dollars by letting us keep their wardrobes in tip-top condition at all times. Here's how it works: Frequent cleaning plus our gentle methods (so kind to clothes) add many months of prideful wear to every suit and coat... saving important money on replacements. Why not follow this smart example... starting NOW!

SPECIAL! From now through July 15 we will **MOTH-PROOF FREE** all garments which are sent in to be dry-cleaned — using a new method guaranteed by the Signal Chemical Company.

— ALSO ANNOUNCING —

We are now the licensed dealer for the famous...SITN shrr WE ARE NOW THE LICENSED DEALER FOR THE FAMOUS "CRAVENETTE" PROCESS.

We are now equipped to Cravenette any garment right in our shop without any delay, making it water-repellent.
