### Veterans Advised To Ask For Loans Direct From VA

Veterans in rural areas seeking GI home loans who are turned down by local lenders should apply direct to Veterans Administration regional offices rather than to Voluntary Home Mortgage Credit Program (VHMCP) regional committees, VA announced.

This suggestion is made, VA said, in order to speed up direct VA loan processing and to set up a priority system for veterans who are unable to secure VA-guaranteed GI loans from private lenders through VHMCP.

Previously, veterans seeking GI loans were being referred direct to VHMCP regional committees so that these committees might be able to assist in securing private GI mortgage financing for World War II and Korean conflict period veterans living in remote areas and small communities.

Veterans applying to VA will be sent a VHMCP home loan application. VA then will put their names on a register so that a follow-up may be made and a priority established for the individual veteran.

Should the VHMCP committee be unable to provide regular GI financing for homes from private lenders, the veterans then can apply to VA for a direct government loan.

Loans secured from private lenders through the facilities of VHMCP regional committees will be guaranteed loans bearing the same interest rate as VA direct loans—4½ per cent per annum.

Recently, VA took another important step in speeding up the process of getting mortgage financing for veterans living in rural areas by cutting the time for re-
