WHAT DO YOU MEAN, UST FACE LIFTING"

Every now and then, we run across someone who seems to think that 1956 cars do not offer anything really new - just a little face lifting from the year before.

We won't try to speak for the automobile industry. But we certainly can speak for

And let us announce in no uncertain termsit's the newest thing on wheels.

The Styling is New

Sure, it looks like a Buick. But it has a new V-prowed grille that says 1956 and no mistake. The hood's new-the fender ports are new-the sweepspear is new-and it all adds up to a new sweep-ahead look that ends in a sassy new slant to the rear contours. But that, friends, is only the beginning.

The 1956 Dynaflow* is New

It introduces what the engineers call "double regeneration" - which means a double-action take-off. It gives you new, split-second response in the first inch of pedal travel - plus the "switch the pitch" at full acceleration, which no one else has yet approached.

The Ride is New

To coil springs on all'four wheels, a brawny X-braced frame, and torque-tube drive, the engineers have added deep-oil shock absorbers to give new softness, new buoyancy, new comfort, and a brand-new "sense of direction" handling response.

The Power is New

All 1956 Buicks have new and mighty 322-cubic-inch V8's - with record highs in power and compression-with unique new double "Y" manifolding to step up efficiency

-with new carburetor "deicing"-and a host of other new features to make owning a Buick pure pleasure.

The Thrill is New

And the surest way for you to find out how right we are, is to sample a 1956 Buick yourself.

As we said before, this is the best Buick yet -by a wide measure - and when you learn the prices we're quoting, you'll know why this Buick is one of the three best sellers in today's market.

It takes a lot more than face lifting to produce such a winner as this.

New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick builds today. It is standard on Roadmaster, Super and Century-optional at modest extra cost on the Special.

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

LE

Work on the Allens Creek Baptist Church yard is progressing Fishing season opened with a number of fishermen from here bringing home their limit. The Rev. C. D. Sawyer, form-erly of this section and now re-siding in Candler, filled the pulpit last Sunday of the Rev. W. G. Rhinehart at the Rock Branch Bap-Millard Mills and family have noved into their new house in the upper Camp Branch section. Friends of Miss Judith Clarke will be glad to hear that she is improving after a recent illness. Allens Creek CDP

Sets Ham Supper

By CHARLIE H. DUCKETT

The Allens Creek CDP is spon-

Saturday Night

AGRI-STREP than with standard copper or Bordeaux sprays. AGRI-STREP is also highly effective in controlling and eradicating blue mold when accom ing wildfire. Here are 4 tested reasons why it will pay you to use AGRI-STREP:

1. Agri-Strep sprays are quickly absorbed by obacco plants . . . work internally to kill germs without damaging the plants.

2. Agri-Strep contains only streptomycin—the one antibiotic that kills both wildfire bacteria and blue mold fungi. Agri-Strep, used as directed, is non-toxic and

does not corrode or clog sprayers. 4. Agri-Strep is recommended by many State Agricultural Experiment Stations.

Decide now to boost your profits with economical Agri-Strep. Extensive commercial tests have proved that Agri-Strep users get a full, healthy stand. Also on limited acreages, they can bring a bigger crop of better leaf into the barn. Come in today and get your supply. Available in bottles of 4½ ounces and in 25pound drums.
