

**BRAIDING RUGS**—an old tradition of the Southern mountains—was taught at the craft workshop at Camp Schaub last week by Mrs. O. W. Charles of Greenville, Tenn. Getting pointers here are Mrs. Carter Tweed of Buncombe County, Mrs. J. C. Messer of Rattliffe Cove, and Mrs. Jack P. McCracken of Bethel. In charge of the workshop was Miss Rose Elwood Bryan, food conservation and marketing specialist from N. C. State College, who was honored at a banquet Wednesday night.

**BASKETRY** occupied the attention of these six women at the seventh annual Western District craft workshop at Camp Schaub last week. From left to right are Mrs. Olen Tatham of Thickety, Mrs. J. A. Singleton of Dellwood, instructor; Mrs. Bud Chambers of Clyde, Mrs. Paul Clark, Jr., of the Merry Homemakers Club of Canton; Mrs. Bert Cagle of Bethel, instructor, and Mrs. Ulma Smith, assistant home agent in Beaufort County. ## Board Considers City Manager Plan For Canton

Leigh Wilson, assistant executive director of the N. C. League of Municipalities, spoke on city manager government at a joint meeting of the Planning Board and the Mayor and Board of Aldermen of the Town of Canton last week.

Wilson pointed out the advantages and disadvantages that have been experienced by the 47 cities in North Carolina that are now operating under this form of government.

The Planning Board has been studying the city manager form of government for some time, and will give it still further discussion.

Members of the board include: Bobby Phillips, Mary Kay Phillips, Louise Pinkerton, and R. V. Putnam.

Harold Queen, Dean Reece, Stanley Rogers, John Russell, Annette Sheffield, Jannette Sheffield, Eugene Shepherd, Boyd Shipman, Gudger Shipman, Dale Singleton, Ardie Ruth Smathers, June Smith, Shirley Smith, Stanley Swayngin, Tommy Vance, Doyle Wawen, Ray Warren, Roy Warren, and L. M. West.

## More Than 100 To Meet Wed. At 'Chapaco' Conference

More than 100 members of the company-wide management team of the Champion Paper and Fibre Company will arrive at Lake Logan Wednesday to participate in the first of five "Chapaco Council" management conferences scheduled there during June.

A like number of Champion management people will be enrolled at each of the four subsequent conferences, with each meeting scheduled for three days' duration.

Each of the five conferences will include management personnel from the company's Ohio, Carolina and Texas Divisions, from their general offices in Ohio, from their clay plant in Georgia, and from their sales offices over the nation. The Chapaco Council conference series was instituted last year with some 500 in attendance. The remainder of Champion's more than 1,000 management people will participate in the program this year.

The discussion subject for each of the 1936 conferences will be "How to Help 8,000 Champions Do More, Share More, Enjoy More." Addresses by Thomas G. Spates, Yale University personnel admin-

istration professor emeritus, will be features of all five meetings. Five nationally known men will in turn bring each conference to a climax with talks on education, government, religion, finance and industry.

In the order of their appearance at the council, the principal speakers are: Dr. J. Harold Lampe, dean of engineering at N. C. State College, on June 8; The Hon. Donald A. Quarles, Secretary of the Air Force, on June 12; Dr. Daniel A. Poing, editor of the Christian Herald, on June 15; Ruddick C. Lawrence, vice president of the New York Stock Exchange, on June 19; and Neil McElroy, president of Proctor and Gamble Company, on June 22.

Dr. Lampe, who will address the first council session next Friday night, is a native of Maryland, holding a doctor's degree in electrical engineering from Johns Hopkins University. He further holds a doctor of engineering degree from Clarkson College of Technology.

Dr. Lampe spent 18 years as an instructor at Johns Hopkins in the

university's electrical engineering department. In 1938, he was named professor of electrical engineering and the department head at the University of Connecticut. In 1940 he became dean of the university's school of engineering.
