THE BUREAU OF CENSUS reports that two-thirds of U. S. homes have TV sets. An increase from five million to thirty-two million in only five years. The survey showed that family sizes of 4 and 5 were more likely to have sets than smaller or larger groups. City families more than rural, and central and northeastern states more than the south or west. Our area has a larger concentration than the country average. Latest figures show well over 85%. We're proud at NELSON'S TV SERVICE to be a part of the service force in keeping these sets working for the best viewing enjoyment. Phone GL 6-5581 and let us prove our ability in satisfying you.
