CATCH BOTH!

Outlook Bright For Turkish Tobacco

A Turkish tobacco specialist on a recent visit to Haywood County was optimistic about the current crop here being grown by several Haywood County folk. He termed the quality as far above that seen anywhere else this season.

Haywood has pioneered, it seems, in growing the aromatic tobacco, with much of the interest being created by A. L. Freedlander, president of Dayton Rubber, on his Allens Creek farm.

The specialist on his Haywood inspection tour pointed out that the price again this year would be \$1.25 per pound for the best grade of the tobacco.

It is interesting to note that more and more farmers are studying the merits of Turkish tobacco and are finding that they have land suitable for growing this non-allotment crop. There is a strong possibility that before many years Turkish tobacco will be one of our chief sources of cash income on Haywood farms.

Living Is So Grand -Slow Down

We Americans have a high regard for speed. The fact that we make things faster and distribute them faster than other nations has a great deal to do with our economic strength. In sports we like fast moving games. For most of us life is geared to a pretty fast tempo.

But there's a place for everything - including speed. And the staggering toll of traffic deaths, plus the fact that speed is involved in a majority of them, makes it plain that speed has no place on the highway.

It's rather interesting to note that safety authorities are concerned with more than just exceeding the speed limit. They list failure to give the right of way, passing without caution, driving too fast for road, traffic and weather conditions, and following the car ahead too closely as symptomatic of the "in a hurry" complex that causes accidents.

That "in a hurry" complex is the target of the Slow Down and Live campaign on the highways of North Carolina this summer.

The sponsoring Governor's Traffic Safety Council believes that if this message can be implanted in the minds of drivers everywhere it can effect a reduction in the traffic toll.

Lawmakers To Discuss **Legislation Here Friday**

On Friday afternoon Governor Luther H. Hodges and about 40 members of the 1956 General Assembly will gather here to discuss pending legislation which will be presented at the special session which convenes July 23. While their meeting will be closedand understandably so - it is a real joy to have such a distinguished group of our State government meeting in our midst.

The General Assembly has facing it one of the major problems of all time and we feel that it is fitting that the Governor and his advisory school committee should take the time to sit down and calmly discuss with the members of our law-making body the problems which face the State.

We know of no better place for such a calm and deliberate conference to be held than the home of A. L. Freedlander, president of Dayton Rubber Company, on Allens Creek.

Disaster Fund Has Permanent Place In Our Society

The creation of the Haywood County Disaster Fund last year was a step in the right direction.

At the time the disaster fund was created, Unagusta Plant No. 2 was still smoldering. Within a few days disaster struck a severe blow, also with fire, to two familles in the community and they were immediately given assistance from the fund. A number of people realized then the importance of keeping the fund active, and wise was the decision, since disaster has again struck within our county.

This week a check for \$1,000 was given by the Disaster Fund Committee to a special committee to be disbursed among those families who suffered so heavily in the recent Cove Creek flash flood. The \$1,000 going to the Cove Creek flood victims will ease their present financial status but in no way fully compensate for their heavy losses.

The experience of the past six months has proven the wisdom of having such a fund available and we expect that there are many citizens in this county who will contribute liberally to the disaster fund to see that its treasury is replenished.

But certainly the frightening highway death and injury toll commands the support. of everyone in this national effort to keep speed in its proper place.

Cove Creek Farmers Ready To Give More

We were vividly impressed by the attitude of the hard-hit Cove Creek farmers as they voted unanimously to contribute the right-of-way for a new bed of the creek which washed away many acres of their valuable farm lands and crops on June 30. The farmers realize that their best insurance against a repetition of what happened June 30 is to have a wider and straighter creek bed.

We trust that no time will be lost in providing this essential for this hardy group of farmers.

A few strong instincts and a few plain -Wadsworth. rules

VIEWS OF OTHER EDITORS Responsible Government

High-ranking Washington officials too often have let their advisers take the blame for unpopular decisions. They have shown a failure to understand the basic principles of responsible government. That day now seems to have passed. The demise could not have come too soon,

Maggie Group Has Interesting Program

We have had an opportunity to observe some of the program of the Maggie Valley Chamber of Commerce and we have been impressed by their determination of a "downto-earth' 'approach to the visitors within the "symptom" in time, they their gates.

The community is small enough to personalize their friendliness and yet large enough to stage a cooperative program that is different from the usual Chamber of Commerce promotion. As far as we know this is a new approach in Chamber of Commerce work and it strikes us that it is just "tailormade' 'for such a community as Maggie. .

There is a lot of interest, enthusiasm and energy being injected into the program by the Maggie folk and after all, what more is needed for attaining the success of any program?

at the top, but would do a lot of good at the bottom is child phychology.

Burgess recently told a congressional subcommittee that banker advisory committees give the Treasury valuable information about its financing problems but don't make the decisions. "We'll take the rap for that," he declared. Too much nonsense has been talked about the insidious role of business advisory groups. The responsibility for the ultimate decision always rests squarely on the shoulders of a policy-making official who has been appointed by the President. If the advice he receives is no good, he should dismiss the advisers and find others. If the advice is self-interested, he should have the wit to recognize that fact or shouldn't hold high office. If the official makes bad or dishonest decisions, then he should be fired.

Earlier this year the Administration flatly refused to allow a group of civil servants to answer questions of the Senate Permanent Investigations Subcommittee. The officials had been members of an interagency committee that recommended East-West trade control changes to the National Security Council in mid-1954. It was the Cabinet-level NSC that finally decided which controls should be eased and which not. The Administration properly took the position that the Cabinet officers could be interrogated, but the civil service experts were answerable only to their superiors and their recommendations were none of Congress' business.

Cabinet officers and other agency heads are legally and morally responsible for the conduct of their departments. The Administration has done well to enforce this fundamental rule of orderly government .- The New York Herald Tribune.

In Wheeling, West Virginia,

where a voungster was found hacked to death allegedly by two 14-year-old playmates, parents learned afterward that the youths were all members of a "pigeonkilling club" pledged to "show no mercy to injured ones."

about Omar's death, Mrs. Ashcroft in concert, was properly sympathetic.

"won't you go out to the cemetery with me?" asked Miss Emily, Mrs. Ashcroft replied that she would be glad to, but she couldn't possibly leave home before three o'clock, at which time she would meet Miss Emily at the corner of

F and Eleventh Streets, "I appreciate it so much." said Miss Emily. "Good-bye:

It lacked two hours of being three o'clock. She felt she couldn't possibly stand it in her apartment for that length of time being alone with her grief and dead Omar. She knew what she'd do --- she'd go shopping to pass away the time

Sadly and with gentle hands she wrapped Omar in clean white towels, placed him in a box, neatly wrapped and tied it and then taxied over to one of Washington's largest department stores. She went somewhat listlessly from counter to counter, purchasing a few small articles. Each, time she carefully and tenderly placed the box on the counter by her side.

Finally her last purchase was made, and by that time it was almost three o'clock. She decided she'd better go and meet Mrs. Asheroft, so she reached for her box and-to her profound horror and amazement --- found that it

quired the salesgirl

Inquiries were made. A woman answering the description and lovely tea honoring her daughtercarrying a package similar to that in-law, Mrs. LeRoy Siler Davis, containing the deceased Omar the former Miss Kittie Stubbs of was traced to the basement and Sumter, S. C. and Lake Junalusback to an elevator. There, however, all trace of her was lost.

But not for long, As Miss Emily and the floorwalker were standing there, wondering what to do next, the matron hurried from the ladies' lounge on the seventh floor and reported that a woman had been in one of the cubicles there for half an hourthat she had locked the door and made no response to raps and calls

"Did she have a box?" inquired Miss Emily.

'Yes, I believe she did." The three of them went to the

woman's lounge. The room was cleared and a porter was called upon to force open the door.

It opened. A woman sat there, her body slumped over backward in a dead faint. On her lap rested an open box containing a dead gray Persian cat, wrapped in clean white towels.

"Omar!" murmured Miss Emily picking him up tenderly and rearranging the towels around him. "That woman should be arrested."

She was, too, because she was found to be a notorious shoplifter. The things she had to say about Omar, however, when she was restored to consciousness were something terrible

Later that afternoon, as the sun was casting lengthening shadows over the countryside. Omar was paced to rest in his little grave. Miss Emily had shed a last tear over the tiny mound, and then she and Mrs. Ashcroft went back to town
