## Active Attire

By VERA WINSTON

THERE'S a right way of dressing for every phase of this complex existence of ours, and here's the right approach to the country sports way of life—or so say the fashion arbiters. Anyway, here's an outfit that is youthful and trim, ideal for active sports wear. The long shorts are of cotton plaid, yellow and gray and the cotton knit sleeveless shirt is in yellow. The same sunny shade is used for the cotton corduroy jacket cut on classic lines save for the half belt in back above an inverted pleat.

## Girl's Charm Begins With Her Voice

AP Newsfeatures

What — from a man's point of view — is the most attractive feature in a woman?

New York speech consultant Beatrice Desfosses, who has been straitening out people's vocal chords for 22 years, thinks the voice comes first and that women have been missing out for years by worrying more about titivating than about speaking. She points out:

"Many actresses who have a terrific following among men have nothing in the way of looks, but they have fascinating voices — therein lies their secret."

Voice training, says Miss Desfosses, can change the whole personality for the better. It can give self-confidence, help to overcome nervous habits, turn a shy person into a relaxed conversationalist or a recluse into a gay hostess.

Her advice to those who want to improve their own voices is: listen, observe — and then practice. She says:

"Someone trying to improve her own speech must first become a good listener, and analyze the difference between the type of speech she likes and that she doesn't like. "She will note that there is a great deal of monotony in the average voice. Listen to the melody and rhythm in a good speaking voice and how important words are brought out and stressed. Try to avoid a dreary all-one-tone manner."

"Observe good speakers and notice how flexible their mouths are, and how they shape sounds. A common fault is talking through clenched teeth, and not using the mouth to form correct sounds."

"Whisper into a mirror, watching if your mouth shapes words
