

## 22 Found Eligible For Soil Bank

Twenty six Haywood County farmers have applied for soil bank aid through the ASC but only 22 were found eligible. A. W. Ferguson, county ASC manager, disclosed Friday as the deadline for making application for the program was reached.

Mr. Ferguson said his office has not been informed as to when payments will be made on 1956 crops, but he estimated the date as around November 1.

During the second week in August, Mr. Ferguson explained, the ASC will check performance on farms participating in the soil bank program to measure acreage to be taken out of cultivation for the remainder of the year.

This check will require about three days, he added.

## Weekly Story Hour Is Held At Library

All children, including visitors in the community, are invited to a weekly story hour which is being held at the Haywood County Library under the auspices of the Waynesville Homemakers Club.

The story hour is held each Thursday morning at 10 o'clock in the Children's Room at the Library.

Members of the sponsoring club, who have had wide experience in teaching children, are serving as story tellers. On next Thursday morning the program will be conducted by Mrs. Joe Cathey and Mrs. Frank Kirkpatrick.

The story hours will continue through August 16 and a party will be held on the closing date.

POURING OF CONCRETE for the middle section of the main portion of the swimming pool at the Waynesville area Recreation Center was completed Saturday morning. The only concrete

work left to be done at the new pool is pouring the diving well on the west side of the pool—which will be completed this week. (Mountaineer Photo).

## Commencement Set Aug. 17 For WCC Graduates

Commencement exercises will be held at Western Carolina College Friday evening, August 17, at eight o'clock in Hoey Auditorium, it was announced by President W. E. Bird.

There are thirty-nine candidates for the bachelor's degree and forty-five for the Master of Arts in Education.

George W. McCoy, Associate Editor of the Asheville Citizen-Times, will deliver the commencement address.

Prior to the ceremony dinner will be served in the college dining room for degree candidates and their guests. They will also be guests of the college for breakfast Saturday morning.

President Bird said week-end activities will resume at two o'clock Saturday afternoon, August 18, when members of the Alumni Association are expected to arrive on the campus for a two-day stay.

Features of the week-end program will be a banquet and informal reception Saturday evening, and a tour of the various attractions at Cherokee on Sunday. A picnic supper will be served at Cherokee at six p.m. Sunday, August 19.

## A Bath?

CHARLESTON, W. Va. (AP)—A pair of sudden-looking characters were wondering where they could get a free cup of coffee. One asked:

"Why don't we try Ken Hager's place — you know, Soul's Harbor Mission?"

The other replied: "Haven't you heard? They make you take a bath every night before you go to bed."

## Refurnishing Of Carver Home Is Completed

The refurnishing of the Jack Carver home, to replace possessions destroyed in a fire last Sunday, has been completed with the donation of a refrigerator by a Waynesville merchant.

Mr. and Mrs. Carver and their eight children lost all their possessions last Sunday when their home on Allens Creek burned while they were away.

After the fire, the Rev. C. L. Allen, Rufus Siler, and James Turner conducted a campaign to collect items for the homeless family. Furniture stores gave household items, and individuals contributed linens, pots and pans, wearing apparel, and money and the Carver family has now been reestablished in another home at Allens Creek.

## Blankenship Slated To Return To US

9TH DIVISION, Germany—Specialist Third Class Tommy Blankenship, son of Mr. and Mrs. A. J. Blankenship of Canton, is scheduled to leave Germany for the U.S. in September as part of Operation Gyroscope, the Army's unit rotation plan.

Blankenship is a member of the 9th Infantry Division, which is replacing the 8th Infantry Division at Fort Carson, Colo.

Blankenship is a section leader in Company F of the division's 39th Regiment. He entered the Army in October 1954 and received basic training at Fort Jackson, S. C. He arrived in Europe in May 1955.

Blankenship attended Canton High School.

## 'Science Digest' Uses Story By Lake Resident

In the August issue, Science Digest Magazine includes a five-page reprint from a recent book by Webb B. Garrison, summer resident at Lake Junaluska. Entitled "Volcanoes, Nature's Blast Furnaces," the article explains how these marvels of nature affect everyday life. It is condensed from Garrison's *Wonders of Science*, published in late spring by Sheed and Ward, New York.

"This book has special ties with Haywood County," says the author. "Much of the manuscript was written here. And two years ago, several chapters were used in teaching a class of older youth at the Lake. Though not labelled as 'religious,' the book attempts to show God's hand in the strange and marvelous phenomena of natural events."

*Wonders of Science* is published under Garrison's pen-name, "Gary Webster," which he signs to science and nature articles. He also writes under his own name. *Why You Say It*, published last year by Abingdon Press, is perhaps his best-known book.

**Just think!—You don't have to change a tire along the road... not you, nor your wife, nor your children!**

After a puncture or blowout a "tire within a tire" lets you drive in safety...at legal speeds...for 100 miles or more!

**Another revolutionary new development by GOODYEAR!**

See in the demonstration test above how the new Captive-Air Safety Tire—slashed through with a knife—carried this car for 110 miles!

The car you see in the circle is coming off New York's Triborough Bridge—with a gaping hole in its right front tire. We cut a two-inch slash right through the side of that tire...but we know that both driver and car are safe. The reserve air in the inner chamber lets the car thread safely through heavy traffic without danger or delay. Fact is, that car rolled on for three hours.

—110 miles at legal speeds—without further damage! Here's dramatic proof you no longer have to change a tire along the road!

## NEW NYLON CAPTIVE-AIR SAFETY TIRE by GOODYEAR

The new Nylon Captive-Air Safety Tire—inspired by Goodyear's famous double-air-chamber LifeGuard—lets you ride safely and securely on two independent cushions of air. If the outer tire is cut, torn, or blown out, the reserve air in the inner tire supports your car. You can drive at legal speeds for 100 miles or more...without the danger of tire-changing in heavy traffic...without costly towing charges or road repairs.

This new tire also gives you the powerful, live-action traction of the new Twin-Grip tread, the brawn of 3-T Nylon Cord, and Grip-Seal construction for extra protection against punctures. We have only a limited supply! Be sure to see the Captive-Air Tire soon!

ONLY GOODYEAR HAS THE CAPTIVE-AIR...THE SAFETY TIRE WITH A BUILT-IN SPARE!

"Say, ladies, do you watch those true-to-life soap operas on your television screen?"

"Do you notice those typical hundred dollar house dresses that John's - other - wife wears?"

"And how about that 30x30 foot living room setting with unpeeled pieces of gorgeous furnishings and the numerous servants nearby?"

Usually the script depicts some kind of economic and emotional tragedy in connection with John's meanderings but you can be sure that Portia is not without her chauffer and mink stole.

And if this is the typical household scene, we at NELSON'S TV SERVICE have been calling on the wrong homes. Hereafter, we will make our service calls with tax and tails. When you phone GL 6-6581 watch for the arrival of the best electronic instrumented serviceman of the year. He'll guarantee you satisfaction at an average housewife's price. He'll even wipe his shoes off before he walks over your living room rug.
