

TANK COMPANY, 120th Infantry, N. C. National Guard, left here Saturday morning by convoy for a two-week summer encampment at Ft. Stewart, Ga. (Mountaineer Photo.)

LOADING DUFFLE BAGS into this Army truck Saturday morning for a two-week stay at Ft. Stewart, Ga. (Mountaineer Photo.)

SP-3 REUBIN INMAN is shown driving the Company Commander's Jeep as the Company left Saturday for Camp. This vehicle led the convoy, and via radio in the back, kept in touch with all units. (Mountaineer Photo.)

Time Is At Hand To Get Children Ready To Return To Their Classroom Work

The metallic clang of bells that will sound soon to summon all the children back to a new school term—scheduled to start for most of them within a few weeks—is preceded by a clarion call to action for all of their parents.

The "alert" is sounded by educational authorities in all parts of the country, as if with one voice, inspired by another surge in the annually mounting school enrollments.

Hordes of new pupils will pour into classrooms as beginners. Fewer than ever before will be dropped from school rolls this year as teen-agers in greater number than ever, stimulated by the universal need, for better trained adults and by the encouragement of their parents, seek to continue their education in the colleges and universities.

Administrators of our school system are working miracles in advance of the opening of the term, to stretch classrooms and teaching staffs in order to take care of educational requirements that have been expanding more

rapidly than the facilities for taking care of them.

School administrators, pointing to the immediate problem created by the approaching start of the new fall term, declare that because of such factors as classroom shortages and the lack of a sufficient number of teachers, it is more important than ever this year that parents undertake earlier than ever the task of preparing their children, mentally and physically, for their return to learning.

More can be done to help children advance along the road of learning during the weeks preceding the opening of school than can usually be accomplished on a hit-and-miss basis later, is the opinion of many authorities.

It is almost entirely a matter of orientation for the child to be accomplished by doing as well as talking. And this year, significant advances and trends are developing to make the task easier for all the parents.

On the health side is the progress that has been made toward conquering polio, most dreaded

of diseases to which school age children are susceptible, with the advent of the Salk vaccine. This step forward is especially welcomed during an era when overcrowding of school is inevitable.

It serves to point up the importance of scheduling physical examinations for the children, before school starts, in order to allow time for remedial measures if required. Examinations of teeth, hearing and eyes are pre-school opening musts for which appointments should be made now.

The mounting wave of interest among school children of all ages in better grooming is welcomed also for its importance to character building. The growing trend gives every evidence of banishing the sloppy fads of the past which received their share of blame for creating difficult behavior and learning problems.

Designers of children's wearing apparel have met the growing demand for school clothes of functional design made of easy-to-care-for materials.

A great eagerness on the part

of children to return to school for a new term has been growing. In grade schools the trend is attributed in part to the newer teaching methods, which makes school more interesting to the children, and to the promise of new adventures held by every new school year.

Among high school and college age young people, the trend is credited to their growing awareness of the mounting need and preference for better educated and better trained personnel in all walks of life, after schooling is completed.

In both instances the wholesome newer attitudes toward school reflected by children is vastly stimulated by parents themselves, who have learned to encourage the youngsters to take more interest in their own schooling.

This attitude is best stimulated by concrete evidence on the part of parents of their own enthusiastic interest in the careers of the children—learning.

Wise parents begin talking with their children about the return to school well in advance of the opening in terms designed to stimulate the interest of the children.

Wise parents invite the youngsters to participate in selecting the clothes and supplies they are going to need for going back to school.

Wise parents encourage youngsters to make friends of their doctors and dentists.

Wise parents further encourage their children by participating in adult school conferences, Parent-Teacher association activities,

**NOTICE TO CREDITORS

MORE ABOUT Safety

(Continued from page 1)

brakes be tested and adjusted especially after the summer of long and care-free driving. Tires are next on the list because no matter how good brakes are, worn treads will only cause trouble when quick stops are needed.

The motor needs a check too, they point out, to make sure it will do its part in the response to emergency demand.

And finally, they say, check the functioning of windshield wipers to make sure that vision will not be obscured during bad weather when traffic hazards, especially to children, are multiplied.

Police and school officials join in a special note of warning to all motorists.

Though an automobile driver may have the right of way along a street, his moral responsibility for injury to a thoughtless small

child who darts out from the sidewalk into the path of his car, still exists.

Better, they say, to keep the car in good condition for quick stops and the mind alert, when driving near schools.

and by taking a definite and active interest in school sports and other activities.

Bethel Teacher List Announced

C. C. Poindexter will remain as principal of Bethel school and Gay E. Chambers as principal of Cruso. Teachers in the Bethel district include Richard T. Alexander, Bernice McElhannon, Della H. Phoenix, Irene C. Swift, John W. Sloan, Alice R. Cathey, Garrett A. Smathers, Charles Poindexter, Robbie S. Hargrove, Martin C. Nix, Brownlow C. Nave, Jr.

Lois J. Buckner, Louisa B. Cagle, Maggie C. Davis, C. Bess Barnhardt, Margaret P. Alexander, Lela K. Messer, Evelyn D. George, Nellie W. McCracken, Betty Sue Miller, Velma K. McElhannon, Azalee H. Shepherd.

Margaret Thelma Moody, William Howard Crawford, Louise

child who darts out from the sidewalk into the path of his car, still exists.

Better, they say, to keep the car in good condition for quick stops and the mind alert, when driving near schools.

Hunches For Lunches

Desserts for the lunch that goes to school should meet four qualifications. They should travel well, keep in good condition without refrigeration and be easy to eat. And, of course, they should be tempting to both eye and palate.

Fresh fruits that can be eaten out of hand are perfect for the school lunch. Older children like to munch on apple or orange with chums on the school grounds. Younger children may need to have their fruit partially prepared for eating. For them, cut an apple or pear into eighths, remove the core, dip the pieces in lemon juice so they won't turn brown and wrap well in waxed paper or aluminum foil.

To make an orange both easy

B. Stephens, Clint R. Stephens, Ruth D. Shipman, Eloise Y. Plemons, Pauline R. Nix, Margaret R. Gregory, Hugh B. Rogers, Monroe B. Madison, William C. Stuart, Blanche A. Mehaffey, Jane K. Zeigler, Gladys C. Henson, Mary Ella Moore.

Billie D. Kuykendall, Nelle J. Ledford, Paul T. Grogan, Essie C. Sellers, Evelyn G. Chambers.

to eat and beautiful to behold, cut into eight sections with a sharp knife. Then cut rind from flesh at both ends of each section so that a child can easily separate flesh from rind in one bite. Before packing, tie sections together with a perky ribbon and fold under ends of rind.

Cakes and cookies are lunch box stand-bys. They should be fairly plain to travel well but once in a while it's nice to surprise children with something different. For example, cut a cupcake into fourths, crosswise, and make two little "cakewiches" by spreading two of the cut surfaces with jam or jelly; then close up and wrap. Make "crackerwiches" by filling two graham crackers with icing or peanut butter.

To make gingerbread men, use your favorite rolled molasses cookie recipe but add a bit more flour for easier handling. Roll and cut out little men using either a bought cutter or homemade pattern. Decorate each little man with bits of raisin for eyes and nose, a slice of marachino cherry for a mouth and raisins or currants for the buttons on his coat. Bake as your recipe directs.

Would you trade 20 minutes of your time for a saving of hundreds?

August is Saving Season
at your Ford Dealer's.
Buy a deal while he clears
his decks for the '57 models.

Why put off the fun of a Ford Test Drive for a single day? As you know, it puts you under absolutely no obligation. And it may save you literally hundreds of dollars—we'll get to that a little further on.

By a Test Drive we mean more than a once-around-the-block "spin."

We want you to test the power that rocketed Ford to a 500-mile stock car record at Indianapolis... the GO that won the Grand prize at NASCAR's Daytona Championships. We want you to feel how this Ford seat pays off in your kind of driving: in traffic, passing on the highway, getting going at traffic lights. We'll put either a Ford Six or a mighty V-8 with up to 225 h.p. at your disposal.

We want you to drive and listen—drive and feel.

That fine-car quiet results from sound

insulation under the hood, under the roof, in door and body panels—the most insulation in any car at anywhere near Ford's low price.

Some other things that contribute to that smooth, silent, luxury-car ride are things which Ford's leading competitor certainly can't boast: Ball-joint suspension with wide base control arms for better steering, more stabilized wheel alignment... shock absorbers that are mounted to the frame rather than the body.

"Sure," you'll say as you drive along the road. "Feels pretty good—but after all, this car is new."

Well sir, when you come in from your drive we'll show you why Ford will stay like new for a long, long time.

We'll show you how Ford has five cross-members (including a "K" member) in its frame. Ford's leading competitor only has

two. We'll show you the deep-block Y-like engine design which enables Ford engines to take it.

Now—what you've been waiting for. How can you save hundreds of dollars by taking a Ford Test Drive?

Simply by proving to yourself that there really is a fine car in the low-price field.

You see, the reason a Ford does not cost hundreds of dollars more than it does, is Ford's huge production and the huge volume which we Ford Dealers sell.

But enough of this talk. Come in. And you do the driving and the talking. Bring the family, too.

FORD goes first
