MARINES DRESSED for combat alight from a helicopter on the deck of the USS Sea Lion, a troop-carrying submarine, at sea off Oaslow Beach. In a test maneuver, the operation, first of its kind, tested the feasibility of troops boarding submarines at sea for reconnaissance missions. Marine officials called the maneuver a success. Eight helicopters from the Marine Helicopter Transport Group 26, based at the Marine Corps Air Facility, New River, took part in the test. (U. S. Marine Corps Photo via AP Wirephoto.)

(Continued from page 1) this fall, have not yet been vaccinated against whooping cough and diphtheria.

The law requires that all children be vaccinated against these diseases, and health officials warn that this should be done at once. One case of diphtheria has been established in the county this month, a spokesman for the County Medical Society said yesterday, and added that whooping cough is endemic throughout the county, and when a large number of children come out in school, the possibility of a whooping cough-diphtheria epidemic is increased.

and third shots will be given after school starts. The whooping cough and diphtheria shots are given in the Canton Health office on Tuesdays of each week, and at the County Health Center, Waynesville, on Mondays and Wednesdays. The shots may also be obtained in the doctors' offices daily.

AA Prayer And 12 Steps Given

Interest in Alcoholics Anonymous seems to be on the increase in Waynesville, according to information received by the Mountaineer. The local chapter holds weekly meetings. A number of people have asked about the prayer of the AA and the 12 steps taken by members. The prayer is as follows: "God grant me the serenity to accept the things I cannot change, the courage to change the things I can, and the wisdom to know the

difference." The 12 steps are: 1. We admitted we were powerless over alcohol—that our lives had become unmanageable. 2. Came to believe that a Power greater than ourselves could restore us to sanity. 3. Made a decision to turn our will and our lives over to the care of God as we understood Him. 4. Made a searching and fearless moral inventory of ourselves. 5. Admitted to God, to ourselves, and to another human being the exact nature of our wrongs. 6. Were entirely ready to have God remove all these defects of character.

7. Humbly asked Him to remove our shortcomings. 8. Made a list of all persons we had harmed, and became willing to make amends to them all. 9. Made direct amends to such people wherever possible, except when to do so would injure them or others. 10. Continued to take personal inventory and when we were wrong promptly admit it. 11. Sought through prayer and meditation to improve our conscious contact with God as we understood Him praying only for knowledge of His will for us and the power to carry that out. 12. Having had a spiritual experience as the result of these steps, we tried to carry this message to alcoholics, and to practice these principles in all our affairs.

Diseases of the cardiovascular system took 810,000 lives in 1955, accounting for 53 per cent of all deaths last year.
