# This GMC has "muscles" unsurpassed in its class!

The simple facts speak for themselves. This new GMC 250-8 has 180 V8 horse-power standard. No other truck in its class comes even close to that.

The extra power delivers 276 foot-pounds of truck-propelling torque. Over-the-road truckers call it "guts"—and this GMC's got up to 33% more than the others.

It's at the top of the heap in frame-strength, too. In fact, there's as much as 10% more "muscle" in its chassis than you'll find in comparable trucks.

And there's more. For this rugged GMC

has 3500 lb. front axles and 7200 lb. rear—unsurpassed in its weight-bracket. It has extra-size brakes and springs.

Add it all up and you can see what GMC Blue Chip stamina really means. Especially when you team it with a GMC's dependable performance and Hydra-Matic® savings.

For here's a truck that not only delivers the goods at lowest cost—but keeps delivering long after an ordinary truck would have faded out.

Come in and find out about having one start work for you! \*Optional at extra cost

## Upstart Boxcar

ST. CLOUD, Minn. (AP)—"Itchy-wheels," the runaway boxcar, is back in the sheltering arms of the car barns after trying the open

road with near disastrous results. Shrouded by torrential rains, the boxcar made a break for it, slipped past the passenger station and was headed for open country when a switch engine crew spotted it.

Someone threw a switch just in time to head off the boxcar's early demise at the hands of a passenger train.

things up thusly:

American consumers annually use about 45 pounds of fresh, canned, and frozen citrus fruit, and 22 pounds of canned and frozen citrus fruit juice a year.
