Art Teachers Study Newest Methods In Sessions Here

Forty-one art teachers from elementary grades of Haywood County schools attended an art workshop last week in the dining room of the First Methodist Church, conducted by Henry C. Richmond of Ridgewood, N. J., art consultant with the Art Crayon Co. In the first session, Mr. Richmond reviewed the principles of drawing, painting and color, and the techniques used with various school art media. Throughout the workshop, Mr. Richmond stressed that the child is more important than the picture or craft, and that elementary school art is a means of growth through self-expression

and the satisfaction of creative needs.

In later sessions teachers worked in committees with various media on projects of their own choice. Projects selected were designed to be correlated with subject matter being taught in other classes — such as Social Studies murals, a table model showing good and bad conservation practices, shadowboxes illustrating songs and poems, and blueprint art work to stimulate an interest in science.

The final session consisted of an evaluation period and a social hour, at which Mr. Richmond was host.

Helicopters Lay Hose

YREKA, Calif. (AP)—Federal and state forestry officials are experimenting with a new technique

of laying hose lines for fighting forest fires. Using a helicopter with a special hose mounting underneath, 1500 feet of hose has been laid over a steep, heavily wooded slope in 30 seconds. Forest officials said a trained ground crew requires 40 minutes to lay that much hose under similar conditions.

A new kind of FORD with the mark of tomorrow

You're in for a thrill when you see this new knock-out named Ford! But save your superlatives till you drive it! That's where the fun really starts. It's fun just knowing that others who see you wish they were you. For you're commanding the longest, lowest, heaviest, biggest car ever to sport such a low price tag. There's head room to spare for a new fall bonnet . . . stretch-out space for a "Daddy Longlegs."

You'll find that the tough and ready new "Inner Ford" is built to take the roughest road you'll care to travel. New outboard rear springs and half-joint front suspension let Ford take the turns without the tilt. New sweep-back control arms help take bounce out of bumps.

Best of all, Fords library-like quiet is built in. And the new "Inner Ford" is why. For never before

in Ford's field has there been a body with so much extra bracing so firmly anchored to its foundation. And you can choose from three big Silver Anniversary V-8's with up to 245 horsepower. There's also a new Mileage Maker Six with 144 horsepower, the most modern Six in the industry.

You can pick your Ford tailored to your desires and your budget, too! Choose from nine Fairlane or Fairlane 500 models or from five Custom or Custom 300 models. Or take your pick from Ford's five longer, lower, new station wagons. Whichever model you select, you'll get a car that's been re-invented from the wheels up!

So there's the new kind of Ford. Big! Gracious! Spacious! A luxury car true—but one that any new-car buyer can easily afford. Come in! See what wonder-cars you can buy now at low Ford prices.
