

### First Of School Lunchroom Meetings Slated Tonight

The first of a series of meetings on the school lunchroom program in Haywood County will be held at 6:30 p.m. tonight at the Hazelwood School cafeteria.

The meetings will be sponsored by Mrs. Rufus Siler, county school lunchroom supervisor, managers of the various lunchrooms and workers.

Speakers at the meeting tonight will be Mrs. Siler, who will discuss the over-all program; Mrs. Rubye Bryson, public health nurse, who will discuss the hygienic aspects of the lunchroom program, and Mrs. M. G. Stamey, supervisor, who will speak on the part that teachers and parents can play in seeing that children get the best possible diet.

The meetings will touch on subjects like good manners at the table, eating a balanced diet, drinking plenty of milk, and starting the day with a good breakfast.

An invitation to tonight's meeting has been extended to parents, nutrition leaders of Home Demonstration Clubs, representatives of civic clubs, ministers, county farm agent, and county home agent.

**BUSINESS.** Regardless of how the election comes out, look for Congress to take a whole new approach at legislation affecting small business next year.

As the campaign develops, small business is becoming a major issue, with both parties staked out to take positive action to bring more security to the small business world.

One of the first steps that will probably be taken is to enlarge the size and scope of the Small Business Administration. The SBA has proved it can be a big help to small business in the relatively short time it has been in operation.

**PROBLEMS.** The seriousness of the small business problems, which seem to be general throughout the nation, is reflected in the following facts:

1. Business failures have increased from 29 per cent per 10,000 firms in 1952 to 49 per cent for the first six months of 1956.

2. While the profit rates of small businesses have dropped more than half, the large corporations have enjoyed a 63.8 per cent increase in profits since 1952.

**ISSUE.** The Democrats are charging that the Eisenhower Administration has been dragging its feet in meeting the needs of the small business man even in cases where machinery is set up to meet problems.

They cite these facts to back up the charges:

A compilation of the Small Business Committee of the House shows that the SBA receives about 11,000 requests for loans per month. At the same time, in the years 1954, 1955 and so far this year, only about 9,000 applications were accepted, and only 2,220 applicants have actually received loans.

**SOCIETY.** The North Carolina Society of Washington will open a new year of activity Saturday night with a dance in the West Ballroom of the Shoreham Hotel.
