Perk Up That School Wardrobe

NEW LIFE FOR AN OLD SKIRT . . . Colorful sailboat and sea gull appliques are stitched in contrasting bias binding. Wide rickrack braid in two colors is used to simulate ocean waves as colorful edging for the hemline of the skirt.

By DOROTHY ROE
Associated Press Women's Editor

PRACTICALLY EVERY SCHOOL GIRL has a wardrobe of cotton skirts, some of which may be looking a little weary after a season or so of hard wear.

A few minutes at the sewing machine can put new life in old skirts and brighten them up for the new school term. Local sewing center experts suggest adding colorful appliques to solid-color skirts, raiding the scrap bag for fabrics.

For example, you can make a plain skirt into a conversation piece by adding appliques in a sailboat motif, using simple out-

lines, with single-fold bias tape for the sails and wide bias tape for the hulls of the boats. Seagulls also may be made from bias tape, stitched in a wide V.

Here's another new trick: Take two packages of the very wide (size 29) rickrack in two different colors. Weave the two pieces together, interlocking the points. This makes a single ribbon of trimming, with alternating colors in diagonal lines.

These are only a few suggestions for effective trimmings. Any bright girl will be able to dream up her own ideas for individual appliques to give old skirts a new lease on life.
