

Traffic Fatalities In N.C. Now 5 Per Cent Under '55

The Motor Vehicles Department reported today that, contrary to a national trend, traffic fatalities in North Carolina this year are running below last year.

National Safety Council statistics show that nationwide road fatalities are running eight per cent higher than in 1955. In North Carolina current highway deaths are five per cent below last year, the vehicles agency said.

This reduction was brought about in October when 86 persons were killed on Tar Heel streets and highways compared with 137 for the same month last year.

Past experience indicates November and December are particularly hazardous for highway deaths. "If we are to continue with the present trend toward reduced fatalities," said Motor Vehicles Commissioner Ed Scheidt, "we must realize that the year's most dangerous walking and driving period still lies ahead—and act accordingly."

Ordinarily the vehicles agency calls a year "good" when fewer than 1000 road deaths are reported.

There were 1165 fatalities last year in 1955, the first full year of scientific law enforcement

techniques brought in by Scheidt. Attached are some comparison figures showing month by month fatalities for 1955 and 1956 to date:

	1955	1956
January	85	90
February	69	60
March	76	92
April	86	94
May	92	91
June	88	80
July	106	93
August	82	107
September	98	89
October	137	86

Border Line Dropped

ASHEVILLE (AP)—The North Carolina border was extended into South Carolina 8 1/2 feet without fanfare after a survey team discovered an old error in private property lines.

Politely the variation was called to the attention of both Tar Heel and Palmetto state officials and the error rectified, including the replacing of border markers on Highway 107.

In 1821 there were about 30,000 pioneers in Australia. More than half were convicts.

1187 Tar Heels Lose Licenses For Driving Drunk

The Motor Vehicles Department said today 1187 Tar Heel motorists were convicted of drunk driving in October and surrendered their legal driving privileges as a result.

The October summary of license revokable traffic offenses had one of the highest drunk driving totals of the year, the agency noted. About a third were repeaters and suffered additional penalties.

For the same month last year the department listed 980 convictions on similar charges.

Speeding convictions hit close to a thousand. For the month, speeding over 75 mph brought 337 revocations, two counts of speeding over 55 mph 228, speeding over 70 mph in a car 422, and over 60 mph in a truck nine, for a total of 996 convictions.

Miscellaneous offenses in the summary included: two counts of reckless driving 139, driving after license withdrawn (additional penalties) 187, improper use of driv-

Long, Good Road Wanted

MEXICO CITY (AP)—Most tourists to Mexico would like to keep going all the way to Panama or beyond if roads were good.

The Mexican Tourist Assn. says a poll of 400 visitors showed 83 percent would be interested, when the Pan American highway is ready.

Spaghetti Time

ALBANY, N. Y. (AP)—What's the favorite noontime dish of school children? That's easy—spaghetti, say school cafeteria managers.

Why? One manager said it was because spaghetti was familiar and one said it was because children hate to chew. Another said: "Spaghetti goes down quickly and kids are always in a hurry."

er's license 50, transporting intoxicants 29, habitual violator 40, and larceny of auto 12.

The October total of suspensions and revocations came to 2869, the department said.

For the ten months the figure was 25,602.

FREEDOM FIGHTERS FLEE REDS

WEARY HUNGARIAN REBELS pass an Austrian border guard at Nickelsdorf to make good their escape from advancing Russian forces in the war-torn nation. Reports indicated that the short-lived freedom in Hungary had been crushed under the Soviet military heel. Unconfirmed stories said some rebels still hold out. (International)

Open House

FORT EUSTIS, Va. (AP)—The army doesn't want to lose contact with its retired personnel. High

officials of the Second Army attended an "open house" at this base to observe effects of the program.
