Can anyone living in this greatest country in the world give less than prayerful gratitude for the blessings of Providence? As for us, we have special reasons for giving thanks. We are thankful that we are pharmacists... Thankful that we are privileged to practice our profession in this community. We are thankful for the friendships we have retained — and the new ones we have made. And above all — we are thankful for the opportunity to serve the health needs of the people and to contribute to their happiness.
