

NANCY NOLAND — Editors — PATSY CLARK

The Younger Set

AT W.T.H.S.

The Thanksgiving holiday was wonderful. We are back ready to settle down to some hard work and wait for Christmas vacation.

The Harvest Dance was one of the main events over the holidays. There was a good crowd of young people present. There were also a number of college students and we enjoyed seeing them very much. The lunch room was decorated in autumn colors and made a very colorful scene. Joan Bradley, who was crowned Harvest Queen, was taken on a musical tour of the United States. This was presented by some members of the Tally-Ho Club, Music Department and two tumblers from Bethel.

It was nice to see all the college students home Thanksgiving, but their stay was just too short. We are looking forward to seeing them again Christmas.

We received our report cards Wednesday. We hope everyone was real pleased with their grades, but I have heard some griping about them.

The band participated in two parades last week. Wednesday they traveled to Asheville with decorated instruments. The majorities were dressed in gay red skirts with Christmas decorations on them. They won a prize for their cute suits and some of the band members won a prize for having the best-decorated instruments. We want to thank Mrs. Nesbitt for being so nice to make the

majorette suits. The chorus presented a program for the Central Elementary School PTA last Tuesday night. This was the first performance of the chorus this year. Everyone is getting the Christmas spirit early because of the Christmas music the chorus is now singing.

We are proud of the boys from Waynesville who played on the Midwestern team. They played a good game.

The seniors have been busy taking aptitude tests. It was very interesting to find out what we are most interested in.

The school paper came out last Wednesday. The juniors are putting out a fine paper this year.

The Home Economics Department is busy making Christmas presents for the Christmas party open house December 18. All parents of the home economic students are invited to come and see the fine work that is being done in home economics.

The football banquet was held in the cafeteria Tuesday night. Hugh Grasty was chosen the most outstanding player of the year. Hugh has done a swell job and we are proud of him.

Our first basketball game will be this Saturday night with Murphy. We are expecting a big crowd.

A 'PICTURE PHONE' is demonstrated here by W. E. Kock of the Bell Telephone Laboratories. Still in the experimental stage, the picture phone has been used to transmit a recognizable image from coast to coast.

'Picture Phone' To Permit View Of Persons On Line

Raw Decision

LONG BEACH, Calif. (AP)—How does a professional muscle man keep in condition? Exercise and raw meat, says Mark A. Evans, a husky judo instructor. Well—almost raw.

Sometimes Evans has trouble with waiters in restaurants. He says they can't believe he only wants a steak on the grill 5 or 10 seconds. Recently, weary of argument, he says he told a waiter: "Tell you what. Just bring the steak to the table. I've got a cigarette lighter and I'll do my own cooking."

The population of France is 43 million.

Scientists have given eyes to the telephone.

And the time may come in the foreseeable future when a person can make a telephone call and see and be seen by the person at the other end of the line.

It's all in the experimental stage now, however. This "picture phone" is still undergoing development and is not yet ready for commercial use. Mr. B. A. Mock, manager of Southern Bell Telephone Company in Waynesville, said today.

Researchers at the Bell Telephone Laboratories have used the device recently to send recognizable pictures over distances as great as from New York to Los Angeles.

The images sent by the "picture phone" vary in size from one by one-and-a-half inches to two by three inches. They are in black and white and show only the head and shoulders. A new picture is transmitted every two seconds.

The "picture phone" is not an intruder. Switches at both ends of the line have to be "on" for the picture to be transmitted with the conversation. The picture screen and camera are in a box alongside the telephone. If a person doesn't want to be seen he can flip off the picture switch. But at the same time he cuts off his view of the party at the other end.

Mr. Mock said the experimental "picture phone" is the first system of its kind to offer promise of being commercially feasible because it uses ordinary telephone wires for transmission. Only one pair of wires is required in addition to those carrying the conversation.

Cut-Rate Parking Tickets

BARTLESVILLE, Okla. (AP)—Bartlesville police are offering reduced rates on traffic tickets. A parking meter has been installed inside police headquarters. If a motorist gets a parking ticket, he can settle it cheap by getting to headquarters within 45 minutes and depositing a nickel in the meter. If he doesn't, it costs a dollar.

"Tell her you love her just the same, but you're out of money now and so's your sister."

BOOKMOBILE SCHEDULE

Friday, Nov. 30

RIVERVIEW - WHITE OAK	
Dewey Davis	8:50
John Fincher	9:15
Floyd Green	9:35
Mrs. Ruby Arrington	9:55
Robert Fisher	10:15
Sam Ledford	10:40
Mrs. Edna Baker	11:00
Henry Teague	11:45
Joe Davis	12:30
Norman Duckett	1:00

Monday, Dec. 3

HENSON COVE - CECIL	
Mrs. Henry Francis	8:45
Wiley Franklin	9:00
Ray Prueitt	9:45
Roy Suttles	10:00
Dot's Country Store	10:30
J. W. Johnson	11:15
W. H. Hargrove	11:30
Roy Edwards	11:45
James Reeves	12:15
J. E. Burnette	12:45
Parris Store	1:15

Tuesday, Dec. 4

IRON DUFF - CRABTREE	
Mrs. E. W. White	8:50
Grady Davis	9:15
Helen Sanford	9:45
Duckett's Store	10:10
Troy McCracken	11:00
Walter Hill	11:20
J. B. James	11:45
Matt Davis	12:15
Crabtree-Iron Duff School	12:45

Jane Eads Recalls Her Pioneer Days

By JANE EADS
WASHINGTON — They called me a "trail blazer" and a "Lady Lindbergh" and said I was "plucky" back in June, 1927. Now—in this jet age when women pilot their own planes—are setting world speed records and breaking the sound barrier—I blush to think of it.

All I did to deserve any attention was to climb into a plane, make myself comfortable and start writing about my experiences as the first passenger on the combined passenger and air mail plane flying from Chicago to San Francisco. That 1,950-mile flight of mine 29 minutes ago (it took 24 hours and 20 minutes) is briefly mentioned in "Vision," a new book on American aviation written by Harold Mansfield. The book is concerned mostly with the imaginative and courageous men who have built war planes, from the early crates to the latest intercontinental jet bombers.

The book reveals that scientists, engineers and aircraft designers are now thinking of building planes that will be able to penetrate thermal barriers; of air travel in outer space which will make it possible to get to any place on earth in one hour.

The flight on which I was privileged to ride as a young reporter eager to get a real scoop was far different from what we have today. The limousine compartment in which I sat was up in front of the cockpit where the pilot sat. It was designed for two passengers, but I never was able to really stretch out and consequently arrived in San Francisco stiff in the joints. When we started the descent for our first landing, I was scared. I thought we were about to crash!

WAYNEWOOD GROCERY
