He rushed to the home of a brother, Floyd Cody, and they, too, were unable to do anything.

Scores of people were attracted to the scene, and an estimated 800 cars jammed the highway leading by the place.

The loss which is partially covered by insurance was estimated by some at between \$8,000 and \$10,000.

**MORE ABOUT
Heart Disease**

(Continued from page 1)

Mexico, Arkansas and Kentucky suffer least from it. Their heart rate is about half that of New York, Rhode Island and Washington, D. C.

Why? No one knows. The Public Health Service lists these possibilities: "differences in diet, exercise, stress, hereditary factors and differences in the physical characteristics of the population."

To account for the fact that heart disease takes more lives in the Middle Atlantic States than in other areas, a large school of thought points to facts in the diet as the culprit. Studies have shown that where the intake of animal fats is high, heart disease is high. Others feel that the greater stress, tension and bustle in the East is the answer.

Much more research must be done before the picture can be clarified.

For residents of Haywood County, the latest Federal figures on mortality, issued recently for 1954, show a total of 216 deaths from all causes, with 83 of them due to heart disease.

3 Accidents**

(Continued from page 1)

in the 14 separate accidents recorded from Friday at 4 p.m., through midnight Tuesday.

The only fatality reported was that of a Kansas serviceman who died Sunday of injuries received in a wreck near Bryson City Saturday.

The U. S. Air Force is considering use of mothballs on military airport runways near seacoasts as protection against seagulls. Collisions with seagulls have caused damage to planes and pilots several times. Great Britain's RAF has found mothballs keeps the gulls away.

Cozy Comfort

By VERA WINSTON

A GOOD traveling companion, and equally at home around the house is this nicely tailored robe. The fabric is rayon challis in multi-color stripes with a solid collar and cuffs. The back is bloused above a set-in belt that buttons side front. There is good deep lap-over for comfort and one large patch pocket at the hip. It has a nice, convenient length.

ing of motor vehicle registrations to 13th. This year our total registration will again show another substantial increase. With the in-

creased registration and expanding use of motor vehicles the accident exposure and potential tragedy increases every day.

"The gigantic program of more highways engineered for safety just begun will most certainly result in reduced accidents but there is no substitute for individual caution. We must drive with more

care! We must drive with more regard for the other fellow!

"Will you, as you receive your new license plate, think of your responsibility as a motor vehicle driver and resolve to do this? It would be most heartening to me, personally and officially, if after making this resolution you would let me have knowledge of it by
