

# Miss Burnette Added to Tide Water Staff; To Direct H. Ec. Dept., Announced

Miss Blythe Burnette, of Roanoke, Va., comes to the Tide Water Power Company, as Home Economics Director, who is a graduate of the Home Economics from the University of Georgia, taught Vocational Home Economics in High School for two years, and has been Home Economics Director for the Georgia Company for the past five years.

Miss Burnette is quite successful as a food expert and will be dealing with their food problems, planning meals and party suggestions. All she wants you to do is let her show you how to do it. Don't you know your local ones at any time you can be of assistance to you?

Miss Burnette is a lighting specialist, too, having done home lighting work with the Georgia Power Company, and will be glad to assist in planting better and proper lighting in your home, and help with lighting problems to give better light through better light for children in the home.

## Tide Water Installs Electric Range Home Ec. Department, School

An electric range is being installed in the Home Economics Department of Duplin County High School, through the courtesy of the Tide Water Power Company. The range is being loaned to the Home Economics Department to use in their cooking lessons. In addition to the loan of the range, the Company is having each range installed free of charge to the school as well as providing the free use of electric current for the ranges during the spring semester.

This gives the Home Economics Department of Duplin County High School the most modern way of cooking, so that the high school girls may get experience in the use of electric ranges.

The offer of the use of the electric range was accepted by the school authorities, as well as the services of the Tide Water Power Company's Home Service Director, Miss Blythe Burnette, who is delighted to assist the teachers and students, and home makers, in any way possible.

## County's Dogs Must Be Vaccinated

Since the Duplin County Board of Health adopted an ordinance requiring all dogs in said county to be inoculated against rabies, three thousand and two hundred dogs have received the inoculation. This is an excellent response but only represents about two-thirds of dogs in said county. In order for such to be a success all dogs must be inoculated.

I am soliciting the whole heart-

ed cooperation of all in such a worthy undertaking. The vaccine is purchased by the Health Department and distributed to those appointed to do such work at the initial cost. Therefore dogs are inoculated at a minimum cost.

The ordinance went into effect January 1, 1935, thus two months have elapsed and all dogs have not been inoculated to date. An extension of 16 days will be granted, making March 15th, the last day for inoculating dogs against rabies that are over six months old. Thus any owner or keeper of dogs or dog not having inoculated on or before March 15, 1935, shall be guilty of a misdemeanor and if convicted shall be fined \$10.00 and cost for the first offense and \$15.00 and cost for each offense thereafter, or be confined for 30 days in the Duplin County jail.

The following inoculators will gladly inoculate your dog at a minimum cost of 65c per dog.

Mr. John George Kenedy, Beulaville, N. C.  
Mr. Ralph Miller, Hallsville, N. Carolina.  
Mr. V. S. Bradham, Chinquapin, N. Carolina.  
Mr. Henry Gaylor, Magnolia, N. Carolina.  
Mr. G. H. Dall, Kenansville, N. Carolina.  
Mr. J. G. Holland, Wolfscrape Township.  
Mr. Harry Waller, Glisson Township.  
Mr. W. R. Gooding, Albertson Township.  
Mr. W. A. Usher, Island Creek Township.  
Mr. Paul Williams, Smith Township.  
Mr. J. D. Miller, Warsaw, N. C.  
Mr. Ross, Wallace, N. C.  
Miller's Drug Store, Rose Hill, N. Carolina.  
Mrs. Armstrong, Faison, N. C.  
Mr. Norwood Williams, Rock Fish Township.

## Muddy Creek Items

Mrs. W. F. Lanier was hostess to the Burton Womens Club Friday afternoon.

The subject was "Pictures and Picture Hanging."

The hostess served delicious ambrosia, cake and tea.

Mr. and Mrs. Ray Lanier have just moved in the M. C. Community. Their friends welcome them here.

The Primitive Baptist held their regular quarterly meeting, Saturday and Sunday. A big crowd attended.

Mr. W. C. Smith preached a real good sermon Sunday night at Bethel Presbyterian church.

Bethel church has preaching every second and fourth Sunday night at 7:00 o'clock. Sunday school every Sunday at 10:00 o'clock.

Mrs. Earl Lanier left Sunday for her home in Burlington, after

## MRS. MIDDLETON BROADCASTS TO NATION ON GARDENING

Mrs. Henry Middleton of Warsaw, N. C. went to Washington, D. C. Tuesday night and made the following five-minute broadcast over the national hook-up on Wednesday during Farm and Home hour.

This honor came to Mrs. Middleton through her record in garden contests in the county and State put on through Home Demonstration work.

Her radio message based on a previous garden contest record is herewith submitted:

### THE SPEECH

"I am to tell you this morning what a year-round Garden can mean to the health of a farm family.

In my family, consisting of my husband, four children and myself, we have had a daily supply of vegetables from our garden for the past four years. As a result we have had to call a doctor very seldom and for twelve months did not even consult one. Each child has gained in weight. They look and seem perfectly well and are bringing home better reports from school than ever before. I believe this is principally due to our year-round garden upon which we have grown more dependent each year.

We learn in our Home Demonstration Club that if we are to enjoy good health we should have at least three servings of vegetables daily; a leafy vegetable, a starchy one, and another, preferably a root vegetable. These are the foods that supply us with vitamins, mineral matter and roughage.

Through garden contests our family learned to follow a planting schedule which would give us a variety of vegetables the year round.

We live in Eastern North Carolina and the mild weather permits us to grow green things all through the winter. Our garden is an acre in size and we grow all the vegetables we can eat. The cultivation of vegetables is an extensive business. They are only at their best if crisp and fresh, and this means that they must be grown in the shortest space of time possible and must be supplied with an abundance of plant food.

During the year we spent \$20.00 for seed beside using the garden and field peas, sweet potatoes, butter beans, kershaw and turnip seeds which we saved.

We planted cabbage the 25th of

In County died in a government hospital at Columbia, S. C., Saturday morning, March 2nd at about 2:00 o'clock.

He was a member of Co. G., 322 Infantry and served about twelve months in France, was a good farmer and all who knew him were his friends.

He was the son of the late Elias and Lorietta Brock, and is survived by his wife, Mrs. Senia Rogers Brock, four sisters, Mesdames Lawton Hargrave, Frank Swinson, Ivey Jones and Miss Anna Brock all of the Bear Marsh community.

Funeral services were conducted at the graveside in the Pate family cemetery Tuesday afternoon at 3 o'clock, with the Rev. W. R. Stephens Baptist Minister of Calypso officiating.

and served all we needed for seed. We are now in February eating collards, broccoli, turnips, kale, mustard, spinach, onions, cabbage, and lettuce fresh from our garden. We have also Irish and sweet potatoes, field peas, and butter beans, and canned vegetables stored away. This goes a long way towards living at home.

While we work to make vegetables to feed our bodies to keep them well and strong, there has always been a place in our garden for flowers. There's always a fresh vase of flowers placed on the table each day. Did not Mahomet wisely say, "He that hath two loaves of bread, let him sell one of them for flowers of the narcissus; for bread is food for the body, but the narcissus is food for the soul."

September and set them out the first of December and by planting three varieties we had them all through the summer and fall.

We intended first to supply the family table with fresh vegetables, can all we could, and market the surplus from our garden.

While we were in the garden contests our cash income from the garden averaged around \$185.00 a year. The average cost of making it was \$45.00 and the vegetables eaten at market price ranged in the hundreds of dollars. Counting the lack of doctors and drug store bills, and the time saved through the maintenance of good health for a family of six, there are no figures which I could give you that in any way express what our garden has been worth to us.

That we might have plenty of vegetables to eat raw, we planted tomatoes in our little green house the first of February, transplanted them to hot beds and then set them to the rows in the garden. From three different plantings we had tomatoes from the middle of June until the middle of November ate them daily, canned 30 quarts and sold \$40.00 worth at an expense of \$10.50.

Our English peas were fine. From two plantings we produced all we could eat, canned 13 quarts sold \$3.95 worth, had saved all the seed we needed to plant this year.

We had all the fresh butter beans we could eat, sold \$3.90 worth and dried 3 pecks for eating in the winter.

We actually sold \$90.58 worth of cabbage, after taking out expenses and \$37.75 worth of cabbage plants.

Our turnips were planted in September. I began selling turnip salad, or greens as some call them, in February and sold \$35.00 worth. The thinnings formerly thrown away, brought me \$2.50, spent this money for Weason Oil that I might use my vegetables raw in a salad.

We planted two crops of Irish potatoes, three plantings of bush beans, three of pole beans which gave us all we could eat.

Some of the fifty to sixty bushels of sweet potatoes which we produced we exchanged for groceries.

We have had onions the whole year through. We had field peas fresh in summer and ate dried ones all winter, sold \$14.00 worth

Hallsville News

Miss Mary Lou Bostic, Reporter  
Mr. Ralph Veach was the guest of Miss Reba Winstead Sunday.

Mr. and Mrs. Albert Kennedy spent Sunday with Mr. and Mrs. Edward Houston.

Miss Linda Kennedy spent the week end with Misses Elma and Josephine Carroll.

Mrs. Anna Waller spent Sunday with Mr. and Mrs. J. K. Bostic.

Mr. and Mrs. Davis Blalock and Miss Maud Williams spent Sunday with Mr. and Mrs. Leon Blalock.

Mr. and Mrs. Rom Jarman spent Sunday with Mrs. Johnnie Langston of Warsaw.

Mr. Leslie Turner was the guest of Miss Mary Grace Sumner Sunday.

## Pre-School Clinics For Colored Children

The following is a list of the places and dates for pre-school examination of colored children. The health department hopes for the hearty co-operation of parents in these clinics.

Monday, March 11—Little, 10 a. m.; Carter's Chapel, 2 p. m.  
Tuesday, March 12—Tillery's Chapel, 10 a. m.  
Wednesday, March 13—Hollis-

ter, 10 a. m.; Goldmine, 2 p. m.  
Thursday, March 14—Rosedale, 10 a. m.; Weldon, 2 p. m.  
Friday, March 15—Wayman, 10 a. m.; Eastman, 2 p. m.  
Monday, March 18—Hard, 10 a. m.; Draper, 2 p. m.  
Tuesday, March 19—Halifax, 10 a. m.  
Wednesday, March 20—Enfield, 10 a. m.; Dawson, 2 p. m.  
Thursday, March 21—Hobgood, 10 a. m.; Scotland Neck, 2 p. m.  
Friday, March 22—Eden, 10 a. m.; Daniel's Chapel, 2 p. m.

# SPEAKING OF Blessed EVENTS

## Here's "Reddy Kilowatt" Your Electrical Servant

A new character in this section. He is not exactly a newcomer, yet he is new in the Electrical Advertising field. He is represented as being the powerful little fellow behind the electrical switch—unseen—but a third stronger than a full grown horse! A flip of the switch brings him out to work—and still he is never in sight. However, a mental picture of him reveals a pleasant young chap—always smiling intelligently—has an enlightened nose, receptive ear (always open to hear of new work to be done in homes), wears gloves which enable him to do the roughest, toughest tasks safely. His lightning-like body shows how fast he works—like a flash!

"Reddy" appeals to us! Something unusual in advertising—he talks—says he, "I am glad to be here—use me whenever you desire. I work cheap!"

## Tide Water Power Co.

# \$556.80 PER ACRE
