**NEW THREAT**—Information coming from Washington, D. C., indicates the certain candidacy of Congressman Lindsay G. Warren, of Washington, N. C. in opposition to Senator Josiah W. Bailey in 1935. While Senator Bailey has been to the aid of President Roosevelt in recent weeks in a spectacular manner it is pointed out by Warren supporters that the primary of next spring "is just around the corner". Senator Bailey was said to have lost ground in his opposition to enactment of the Agricultural Adjustment Act, the Bankhead cotton control bill, the seed loan act, the St. Lawrence waterway act, the soldiers bonus proposal, all except the last sponsored by President Roosevelt.

**RECORD**—Friends of Congressman Warren are pointing to his record on the foregoing legislation and say that his action meets with approval of all parties concerned. Unless something unforeseen happens it can now be safely said that Senator Bailey will face potent opposition next year and its better than an even bet that Congressman Warren will provide a substantial part of that opposition. Warren is known as a liberal and enjoys the reputation of being close to President Roosevelt and vice-president John N. Garner.

**CHANGED MINDS**—Raleigh politicians are changing their minds about the intention of R. T. Fountain, former Lieutenant Governor, to run for the United States Senate in opposition of Senator J. W. Bailey and all comers next year. Fountain is a frequent visitor to legislative halls and can be seen often talking seriously with men who supported him against Governor Ehringhaus in the primaries of three years ago. The opinion is that his earnestness bears out his statement that he will run next spring, no matter which way the wind blows.

**PAROLES**—A small war, conducted mostly under cover, is being who have been disappointed in and avoid that many attorneys in the ranks of the campaigners advise boys have been taking notes role Commissioner. Some of the pleas for executive clemency are against Edwin M. Gill, Parole Commissioner, Establishment of a parole board of several members would only affect recommendations, since the Governor is the only man who can sign releases from prison at his State.

**TAKES**—Don't get too excited about the proposal the levy a three per cent income tax on dividends from stocks in domestic corporations. It may be done. Many of the legislators who voted for the proposal in committee did it simply to get the revenue bill out on the floor of the House. Privately they have announced intention of fighting this tax on the floor of House and Senate. They call it double taxation but its proponents say it gets the folks who are really able to pay.

**YOUR MONEY**—It now appears reasonably certain the General Assembly is going to take \$1,650,000 of your gasoline money and spend it here, there and everywhere. It will be done by levying the three per cent sales tax on the money collected from auto license tags and gasoline taxes. The people paid it for roads but that doesn't appear to cut much ice with the boys who like the diversion idea. Now the counties are trying to get the State to return to them at once, money loaned for construction of roads faster than the highway program called for. The raid on the highway fund isn't over in this General Assembly by any means.

**INVESTIGATION**—The legislative probe into conditions which caused the loss of both feet to two Negro convicts in a camp near Charlotte revealed, among other things, that the legislature of 1933 appropriated to the prison system

that requires the employment of prison physicians at less than \$50 per month, the doctor who has charge of the two camps involved in the probe testified that he received \$75 per month before he was suspended. Some folks say you can still expect to get the kind of penal system you are willing to pay for.

**HOEY**—Raleigh friends of Clyde R. Hoey, Shelby's potential Candidate for Governor next year, must know something. They say with confidence and without qualification that Mr. Hoey will announce his Candidacy within a week or two. Nobody here doubts that Lieutenant Governor A. H. Graham has made up his mind to take on all comers in the primary. Reports about intentions of Congressman R. L. Doughton, reported to have the gubernatorial bee buzzing in his bonnet, are less definite but his friends are leveling off the ground in the event he decides to chase the elusive votes.

**EHRINGHAUS**—Friends of Governor Ehringhaus who want him to run for the Senate are not feeling so well after recent conferences. They say the Governor is lending only half an ear to their pleas that he make the race. The General Assembly is occupying the executive's time and his Senatorial supporters fear that he may lose interest in the pictures they are painting for him. Ehringhaus has told them that he is more interested in making a record as Governor than in future political plans.

**WAKE FOREST-MEREDITH SUMMER SCHOOL IN MOUNTAINS**

Preliminary plans were completed last week for the opening of a branch of the Wake Forest-Meredith summer school at Mars Hill college this summer.

The faculty of each of the three colleges and representatives of the boards of trustees have approved the plans, which have been under consideration for some time, of establishing at Mars Hill college a branch of the Wake Forest-Meredith summer school to begin this summer. For the past few years Wake Forest and Meredith college have conducted jointly a summer school on the Wake Forest campus and Mars Hill college has maintained a summer school at Mars Hill. Under the new plan the combined summer school at Wake Forest will be conducted at Mars Hill college, to be known as the Wake Forest-Meredith summer school at Mars Hill. The Mars Hill summer school will be merged with the combined summer school.

Dr. B. Y. Tyner, head of the department of education at Meredith college, has been named as director of the summer school at Mars Hill and Dean I. N. Carr of Mars Hill as associate director. An executive board composed of representatives from the faculties of the three colleges will have general charge of the school. All officers and teachers of the school have not

been named. It has been announced, however, that the teachers of the summer school will be drawn from the regular faculties of the three colleges.

Work has begun on a bulletin announcing in full plans for the school. The proposal at present calls for a nine-weeks term, the exact dates of which have not been announced, with possibly a shorter term of six weeks. Practically all the facilities of Mars Hill college will be available for the summer school. These facilities according to an investigating committee from the other two colleges, will be adequate for the proposed school with the addition to the library of books for certain advanced courses. According to the plan announced in addition to junior college courses full senior college work will be offered, except certain courses in advanced science, law and medicine.

Both Dr. Tyner and Dean Carr have expressed the belief that with the advantages offered the combined summer schools a large number will attend the Mars Hill division. The enrollment is expected to reach 400 or 500 this summer. Expenses will be held as low as possible, and provisions will be made for accommodating married students. With courses leading to degrees in standard colleges and courses toward highest certification for teachers, combined with the advantages of residence in the mountains, the summer school is expected to attract an increasing number of students.
