

Enlarging Tin Warehouse In Goldsboro; New Structure Is To Be One Of The Largest

(Special)
Goldsboro, N. C., June 12 — Enlargement of the Tin Warehouse in Goldsboro has begun and the work will be completed in ample time for the opening of the market, according to the announcement made by John R. Morris. The addition will be 15,000 square feet and will bring the structure up to where it will hold practically a day's sale. The addition is being erected on the North side of the present structure and new equipment will be installed which will facilitate matters of unloading and placing the tin on the floor. New drive in doors are being made into the warehouse and the floor is being arranged so that after the tobacco is sold it can be cleared from the warehouse with much more ease than in the past.

The warehouse will be operated by the same people who operated it last season. They are Deems H. Pate, J. Herman Denning and John R. Morris. Both Mr. Pate and Mr. Denning are farmers who reside in Wayne County. Mr. Morris lives here in Goldsboro and devotes his entire time to the management of the warehouse.

Mr. J. M. Easterly and M. T. (Shirley) Morrow, who were sales manager and auctioneer respectively last season, will be back in the same capacity this season. They

made many friends among the growers last season and the announcement of their return will be welcome news to the farmers who sold in Goldsboro last season.

The tobacco crop in this immediate section is improving rapidly since the rains which have fallen during the last few days. Growers in the Patowmack section of the county have suffered tremendous losses due to terrific hail storms which swept that community recently.

TEACHEY NEWS

The Josephine Wells Circle met at the home of Mrs. Henry Wells Monday at 3:30. Eighteen members were present. Mrs. Chas. Hearn taught the Bible Lesson.

Mrs. Janie Ward led the program.

After an interesting program on plans of giving, the hostess, Mrs. Wells served delicious ice cream and wafers.

Mr. and Mrs. L. N. Jones were visitors of Mr. John Herring of Mt. Olive Sunday.

Mr. Earl Harper was also a visitor of Miss Leiber Tompson Friday night.

Mr. Herman Sutton was a visitor of Miss Pearl Barnett Sunday morning and afternoon.

Robertson Explains FHA Credit System

There seems to be some misunderstanding about loans on rural property under the Federal Housing Administration, says A. K. Robertson, state rural housing supervisor at State College.

The FHA plan operates solely on funds or credit made available through local institutions, he explained. The government is not making any loans under this plan.

County rural housing committees have been and are being set up to aid farmers secure loans or credit on reasonable terms. The committees are also ready to offer suggestions about rural housing improvements.

Under the FHA plan, loans are made to finance the repairing or improvement of farm homes, buildings, and other permanent equipment. Any responsible farmer may apply for amounts up to \$2,000. Repayments are to be made over a period of one to five years.

The Federal land bank loans, land bank commissioner loans, and production credit association loans do not come within the scope of the FHA program, Robertson pointed out, since they are designed for other purposes.

However, he said, the land bank loans can be secured for the purpose of buying equipment and materials for farm buildings but these loans must be secured by first mortgages.

The FHA committees and officials have negotiated agreements with large numbers of local institutions to supply loans or credit under the housing program. Robertson added, and all farmers who wish to improve their homes are being urged to take advantage of these facilities.

Families on relief in states fell in April, but costs rose.
