

NEW COTTON LOAN PLAN CHANGES ANNOUNCED

Modification of the new cotton loan plan was announced by the Agricultural Adjustment Administration. The objective of the Administration has been to get an average return of at least 12c per lb. basis 7-8 middling for the producers of cotton. The plan previously announced has been modified, one change making it possible for each producer of cotton to know on marketing his cotton the total amount he will receive for it. The new plan proposes a loan of 10 cents per pound on 7-8 low middling or better. The total received by growers of cotton which does not command premiums cannot exceed 12 cents per pound, so long as the base price is below 12 cents per pound. Instead of making the adjustment payment on the basis of the four months average of 10 spot markets, this adjustment payment will now be based on the daily average of the 10 markets. The adjustment payment will be made on the basis of the 10 spot market average on the actual day that the cotton is sold by the producer. These adjustment payments will be made through the cotton year up to August 1st 1936. They will be made to producers who have cooperated in the adjustment program and who agree to participate in the 1936 program. Adjustment payments to cotton farmers will be limited to 2c per pound. Loans and payments will be restricted to actual production not in excess of the Bankhead Allotment, and the adjustment payments will apply to all sales of 1935 Cotton.

Cotton Growers are urged to keep sales records, says Mr. McLendon, County Agent for Duplin County. Cotton producers who may wish to sell their cotton immediately or at any time during this crop season are urged to obtain and keep sales slips from buyers, so as to be sure to have adequate sales records on which the Government will be able to make adjustment payments under the new loan and adjustment plan. Producers who desire to market their crop are advised to compile a careful record which will include a description of the cotton sold, the buyer to whom the cotton was sold, the date of sales and the names of the parties, including tenants, who have an interest in the cotton sold says Mr. McLendon.

"Thrill Day" To Feature State Fair

Thousands of fair goers, who missed "Thrill Day", last year will get their chance to see the attraction that drew one of the largest crowds and sent more people home satisfied than any show in years, when B. Ward Beam's new 1935 Edition Congress of Daredevils plays a return engagement at the North Carolina State Fair, Raleigh, Tuesday afternoon only, October 15th.
Most of the features of the thrill congress will be new, during the winter months Beam has scoured the whole country for new features and promises nine new events on the afternoons program. In addition to the many new sensational acts, the outstanding thrillers of last year will be brought back again, for this one afternoon only. Among the latter will be the Head-on-Collision between two speeding Automobiles, Auto Polo and other features that the crowds liked so well.
There will be fifteen different stunts on the program and the fair management promises that this year's thrill day will be far ahead of last year not only in sensational stunts but in attendance as well.
