...and underestimated the stomachs of thousands of other taxpayers of Duplin County who are paying these honorable gentlemen to meet in our court house and conduct the county's business. There may be other counties in North Carolina where the commissioners meet practically every week but if there are we do not know of them and we do not believe that Duplin is any worse off than many other counties of the state. If our financial affairs are in such a condition that it requires three men to meet at least once each week and probably more, then the State or Federal Government, had better take a hand and appoint a receiver for Duplin County.

Faison Gin Adds

New Drying Process
Cotton growers in Duplin County will be interested to learn of the electric steam conditioner recently installed in the gin of R. D. Clifton in Faison.

This new process takes your cotton through an electric steaming process, dries it out and gives the lint a bright, smooth appearance. In addition the drying process results a more thorough cleaning of the seed and adds to the weight of each bale.

This process is new to North Carolina, the Clifton gin being the only one equipped with it. Also the Faison gin is one of only two east of the Mississippi equipped with this process.

Mr. Clifton states that every cotton grower is invited to visit and inspect his gin and see the difference in lint that comes out now and that of the old system.

Issues Interesting

Booklet of Records

This paper has received a small book entitled "OFFICIAL DIRECTORY OF DUPLIN COUNTY" compiled by A. T. Outlaw, Register of Deeds. It contains an introductory page, the names of members of Colonial Assembly, State Senate and House of Representatives, Constitutional Conventions, Council of State, Provincial Congress, United States Congress, Confederate Congress, Board of County Commissioners, Sheriffs, Clerks, Registers of Deeds, Treasurers, and all present officials. It dates from the formation of the County in the year 1749 to the present time and is a valuable collection of names of persons who have served the County in official position. The names were collected from various sources during spare time over a period of several years and represents a large amount of research
