### Pink Hill Woman Gives Interesting Information On Old Smith's Chapel Church; How Negroes Worshipped

The writer was a visitor to the home of Mrs. Victoria Gooding near Pink Hill, and learned some interesting facts about Old Smith Chapel Church in Smith's Township. The present building has been in existence about one half century, but the arrangement of the old church was very interesting.

The Pulpit was at the end of the church with side entrance to the building to the right and left of the pulpit, and about even with the front of the rostrum. These entrances were used by the white people. The two amen corners to the immediate right and left of the pulpit were seated with benches facing the pulpit. One side was used by the men who took care of the older children and the other side was used by the women who would take care of the babies. All children were brought to church and in case any gave trouble it was easy to slip out one of these side doors.

The section in front of the rostrum was seated with benches facing the pulpit and was used by the young people and those who did not have children to look after.

It is interesting to note that a revival will begin in this church October 13th, and continue through out the week with Reva. McLamb and Kenior of Pink Hill doing the preaching. The public is most cordially invited to attend these services.
