

Rural People Like Radio Farm Talks

Reports received at State College indicate that the daily farm broadcasts started three weeks ago by the Agricultural Extension Service are favorably received by farmers and farm women.

As at first, specialists from the college are making daily talks over Station WPTF, Raleigh. Copies of the talks are sent to other stations in the state and are read at the same time that the talk is being made over the station in Raleigh by the author of the manuscript.

The schedule for the week of October 7-12 was opened on Monday by Fred M. Haig, professor of animal husbandry at State College, in a discussion of "The Horse and Mule Industry."

For the rest of the week the program includes: Wednesday, Roy S. Dearstyne, "The Poultry Situation in North Carolina"; Thursday, Mrs. Cornelia C. Morris, "Home Furnishings and Home Management"; Friday, Lenthall Wyman, "The Products of Our Forests"; and Saturday, Dr. C. B. Cleverger, "Fertilizers and Soil Acidity."

The schedule for the week of October 14-19 will be opened by Dr. C. D. Grinnells, who will talk on animal husbandry. Dr. B. B. Fulton, will speak Tuesday on "The House Fly". On Wednesday Dr. I. V. D. Shunk will discuss "Plants."

Eight Conferences Planned For North Carolina Red Cross

WASHINGTON, D. C., Oct. 10—A series of eight regional conferences is planned for Red Cross chapters in North Carolina, according to an announcement made at national headquarters here today.

The schedule for the conferences is as follows:

- Windsor, Tuesday October 15th. Speakers, Maurice R. Reddy, Judge Francis D. Winston, Judge J. H. Matthews, regional chairman.
Kinston, Wednesday October 16. Speaker, Maurice R. Reddy, Mrs. E. E. Sams, regional chairman.
Fayetteville, Thursday October 17. Speakers, Maurice R. Reddy, Brigadier General Manus McCloskey, commanding general at Fort Bragg, Joseph S. Huske, regional chairman.
Chapel Hill, Friday October 18. Speakers, Maurice R. Reddy, Dr. Frank Porter Graham, president University of North Carolina, Colonel Gordon Smith, regional chairman.
High Point, Monday October 21. Speaker, Maurice R. Reddy, Rev. D. W. Allen, regional chairman.
North Wilkesboro, Tuesday October 22. Speaker, Maurice R. Reddy, J. H. Whicker, regional chairman.
Gastonia, Wednesday October 23. Speaker, Maurice R. Reddy, Dr. F. K. Fleagle, Davidson College, regional chairman.
Waynesville, Thursday October 24. Speakers, Maurice R. Reddy, Miss Jean Dillon, Supervising Nurse, district health department, Rev. J. A. Flannagan, regional chairman.

"Details of the accident prevention campaign just launched by the Red Cross will be given at all these conferences" said William Carl Hunt, assistant manager of the eastern area of the Red Cross at headquarters here today.

"Maurice R. Reddy will be national speaker at all these conferences. He is a veteran Red Cross worker, familiar with all phases of the disaster relief, health and safety education program of the Red Cross, and is a forceful and effective speaker. The topic for his address at the luncheon sessions is 'Devise and Carry On', referring to the provision in the charter which gives Congressional authority for Red Cross preventive measures against disaster, accident and disease."

District and local Red Cross leaders will take part in all the programs and discussions. Past achievements of the state's chapters, and economic and welfare conditions that have arisen to affect the program for the coming year will be outlined at all the conferences, and plans will be formulated for the roll call which begins in November. Last year for the first time in six years Red Cross enrollment in North Carolina showed a loss instead of a gain. We plan to make up this loss this year and enroll a membership more nearly commensurate with North Carolina's standing as the largest southern state.

"At each of the conferences there will be a showing of the Red Cross film, 'The Greatest Mother', issued during the summer to depict Red Cross activities, the film has had a successful reception on many motion picture programs at theaters all over the United States."

October Is Time To Plant Flower Bulbs

Flower bulbs which are to blossom in the spring, such as tulips, hincintha, narcissi, and grape hincintha, may be planted in October, or as late as mid-November in eastern North Carolina.

The ideal soil does not pack, is crumbly and moist, yet well drained, said Glenn O. Randall, professor of floriculture at N. C. State College.

When preparing to plant bulbs, plow the soil to a depth of 10 inches, then pulverize it thoughtly, he recommended.

Stable manure, thoroughly decayed, is a good fertilizer. If decayed manure is unavailable, bone meal may be used, or a complete fertilizer containing 4 to 5 per cent nitrogen, 8 to 10 per cent phosphorus, and 4 to 6 per cent potash.

A good way to plant bulbs, when they are to be set in clumps or in beds, is to remove the upper four inches of soil, set the bulbs

the desired distance apart, and then cover them with the soil that was removed.

When planting a large area, the soil may first be removed from a space about 3 by 5 feet in size, the bulbs placed in position, then covered from soil removed from an adjoining area.

This opens up the adjoining area, where bulbs may be set and covered with soil from an area just beyond. This process may be followed until the entire lot is planted.

In all cases, Randall stressed apply the fertilizer and carefully prepare the soil before setting out the bulbs.

Expand Extension Forestry Program

With the appointment of Rufus H. Page, Jr., as assistant extension forester at State College, the forestry program is being expanded to meet the growing forestry information.

R. W. Graeber, extension forester said, "We expect to set up a more complete market information service as quickly as the data from mills and other wood-using industries can be gathered."

"We shall offer farmers more help in estimating the volume and value of their marketable timber, and will cooperate with farmers and saw-mill operators in adopting better methods of harvesting the trees so as to insure a continuous crop of growing timber."

Our program of forest planting and timber thinning will be increased. We will assist with the TVA demonstration farms in the 15 mountain counties of this State where the TVA program is being carried on. Soil conservation and erosion control will also come with in the field of our work."

Page has had eight years' experience with boy scout work, including two summers as director of a boy scout camp, and Graeber expressed belief that he will be an aid in broadening the forestry program with 4-H boys and girls.

The assistant forester, a native of Charlotte, graduated from the State College forestry school last June. While a student, he was one of the outstanding campus leaders.

During his senior year he was editor of "The Agriculturalist," monthly publication of the agricultural students. He was elected to membership in Phi Kappa Phi honor society, Golden Chain, Blue Key and Alpha Zeta.

Overcrowding Is Bad For Poultry

Overcrowding the laying birds in fall and winter robs them of their vitality and makes them susceptible to disease.

Records help poultrymen ascertain which birds are good producers and which are falling down on the job. They show the cost of operation, and whether the poultryman is making a profit. They help him find weak spots in his system of management.

Roy S. Dearstyne, head of the State College poultry department, recommends that the birds be given an adequate housing facilities, with plenty of ventilation, but no drafts.

The colds and lung from which many flocks suffer during the fall months may be traced to inadequate ventilation, he said.

As cold weather approaches, he continued, it is advisable to check the birds again for parasites, both internal and external. Infected birds should be treated at once.

Birds to be used for breeding purposes should be blood tested for pulmonary disease. When requested, the State Department of Agriculture will send an expert to make these tests for poultrymen.

Winter grazing crops should be sown in October, Dearstyne said, to provide a source of green feed for the flock during the winter. A mixture of Italian rye grass and crimson clover makes a good winter crop for this State.

He also stressed the importance of keeping accurate records on the flock. Records are essential to the development of a profitable poultry business, he declared.

Records help poultrymen ascertain which birds are good producers and which are falling down on the job. They show the cost of operation, and whether the poultryman is making a profit. They help him find weak spots in his system of management.

ADMINISTRATOR'S NOTICE

Having qualified as administrator of the estate of E. F. Wiggins, deceased, late of Duplin County, North Carolina, this is to notify all persons having claims against the estate of said deceased to exhibit them to the undersigned at Clinton, N. C., or to Gavin & Gavin, Attys., at Kenansville, N. C., on or before the 7th day of October, 1936, or this notice will be pleaded in bar of their recovery.

All persons indebted to said estate will please make immediate payment. This 7th day of October, 1936. W. A. WIGGINS, Administrator of the Estate of E. F. Wiggins. Gavin & Gavin, Attys. Nov. 14-36. G.A.G.

ADMINISTRATOR'S NOTICE

Having qualified as administrator of the estate of Mary Lee, deceased, late of the County of Wayne, N. C., State of North Carolina, this is to notify all persons having claims against the estate of said deceased to exhibit them to the undersigned Pink Hill, N. C., on or before the 8th day of October, 1936, or this notice will be pleaded in bar of their recovery.

All persons indebted to said estate will please make immediate payment. This 9th day of October, 1936. SARAH P. LEE, Administrator of the Estate of Mary Lee. Gavin & Gavin, Attys. Nov. 14-36. G.A.G.
