

Molded party salads achieve jellied firmness in double quick time in the modern Hotpoint electric refrigerator.

Saint Patrick's Day always offers such a grand opportunity for party-giving. But when March 17 falls on a Wednesday during Lent, as it does this year, the menu planner is faced with a complication. However, luckily for her, its solution is a simple matter when a lime gelatin ring selects a creamy tuna fish salad center. And luckily too, this salad is a quick one. The tuna fish center is merely tossed together and the gelatin ring, when placed in the speed-freezing and speed-chilling Hotpoint refrigerator, reaches self-possessed firmness in very short order. Here is the recipe.

St. Pat's Lenten Salad
(Serves 8 - 10)
2 packages lime flavored gelatin
1 pint boiling water

1 pint cold water
10 medium-sized pear halves
10 large stuffed olives
Pimento

Dissolve gelatin in boiling water and stir well. Add cold water, then pour in ring mold and chill in Hotpoint refrigerator until mixture begins to thicken. Remove from refrigerator.

Place a stuffed olive in center of each pear half and a strip of pimento in groove from center to top of pear. Arrange pears in slightly thickened gelatin. Return to refrigerator and chill until set. Unmold on chop plate and fill center with tuna fish salad, blended lightly with mayonnaise. Garnish top with sliced stuffed olives and surround mold with watercress or parsley.

Clayton Bridge Happenings

Mr. Derry Raynor and Miss Alice Nethercutt motored through Mill Swamp Sunday afternoon. Mr. Graham Raynor was the guest of Miss Bessie Hunter Sunday afternoon. Mr. Leslie Aycock and Miss Adell Nethercutt took a pleasure walk through Mill Swamp Sunday afternoon.
