

CHANCE HAPPENINGS

We are glad indeed to report that Mrs. E. G. Maxwell has recovered from her recent illness, to the extent that she is able to walk around in the house. She has a nurse from Wilmington for company. Her son Mr. James Gilbert Jones and wife and little girl Joe Ann have returned to their home at Spartenburg, S. C.

Mr. and Mrs. H. D. Maxwell and daughter, Rose and Violet, Mr. and Mrs. W. B. Gooding and daughter Victoria, Mr. W. J. Grady and daughter, Mrs. Verda Belle Simmons and his granddaughter, Audrey Simmons and others attended a banquet at the Kenansville Masonic Lodge last Thursday night. All report a nice time.

Mr. and Mrs. H. D. Richardson of Stanhope School, Mr. Rommie L. Holt, member of faculty of Berwenue H. S. at Rocky Mount, Miss Hazel Dawson of Kinston, Miss Ray Owen of B. F. Grady School and Mr. Buster Smith were week end guest of Mrs. Mabel Holt at her home. She accompanied them home to Stanhope for a while.

Mr. Hugh Maxwell was home from the University of N. C. for the week end. The family motored to see Ruby May, who is in training at James Walker Hospital. She is the oldest daughter of Mr. and Mrs. Maxwell.

Mr. and Mrs. Rodolph Harper announce the birth of a son, Leland Grant at their home recently.

Mr. and Mrs. W. B. Gooding and little granddaughter "Ernie, Jean Rhue made a business trip to New Bern Friday.

Mr. and Mrs. W. M. Holt, Mr. Brenon Holt and Mrs. Guy McKanna of Lynchburg, Va., sister of Mr. Holt went to Campbell College at Buie's Creek, Saturday to visit Miss Nena Vernon Holt, who is in school there. She is the daughter of Mr. and Mrs. W. M. Holt.

Miss Doris Smith who is a member of the faculty of Stanhope School was home here for the week.

Mrs. Florence Turner and daughter, Virginia, Mr. and Mrs. Willard Smith and little daughter "Tobie", Mrs. C. E. O'Daniel and others visited at Mr. W. B. Goodings Friday afternoon.

Mrs. Minnie Holt, Mrs. Guy McKanna of Lynchburg, Va., Mrs. Verda Belle Simmons and daughter Belle, Mr. and Mrs. Edwin Holt and children, Nancy Carol and Peggy Jean and Miss Lorena Waller visited Mrs. Mabel Holt and Mrs. Perry Smith Thursday afternoon.

Mrs. J. D. Williamson, Mrs. J. P. Williamson and little Bettie Gray visited friends in Chocolate Friday.

Mr. Malcom Grady is spending some time in the home of Mr. and Mrs. E. G. Maxwell.

Miss Viola Southerland and Miss Victoria Gooding visited Miss Virginia Turner one afternoon recently.

Mr. and Mrs. H. D. Maxwell and family made a business trip to Raleigh last Saturday.

GEORGIA REPEAL BILL IS DEFEATED

The House of Representatives in session in Georgia voted to retain the 22-year old prohibition law by a vote of 109 to 84, in a session held in the Georgia capital Tuesday. Two days had been spent in debate on the establishing of liquor stores on much the plan that has come in North Carolina except that the stores would have been under private control.

BRIGHT TOBACCO NEEDS

More Potash

TOBACCO REMOVES FROM THE SOIL MORE POTASH THAN BOTH NITROGEN AND PHOSPHORIC ACID COMBINED

YEAR AFTER YEAR more and more farmers discover that it pays to give bright tobacco plenty of potash. That's why 3-8-8 TOBACCO FERTILIZER is becoming so popular. Farmers like 3-8-8 because the extra potash it contains costs little and pays big! Usually only about six pounds of average tobacco per acre will pay the difference between 1,000 pounds of 3-8-8 and 1,000 pounds of 3-8-5.

Farmers who use 3-8-8 find its small extra cost to be their best-paying fertilizer investment, returning greatly increased yields of better quality tobacco. Full-grained, high-quality tobacco gives more pounds than thin, tissue-paper leaf or light, trashy leaf. When you produce 1,000 pounds of tobacco per acre, an extra cent per pound due to extra quality will pay the extra cost of 3-8-8 many times over.

Your fertilizer man knows the importance of plenty of potash in tobacco fertilizer. That's why he has 3-8-8 on sale. Tell him you want to produce bigger yields of better quality tobacco this year. Tell him you want 3-8-8 TOBACCO FERTILIZER—the mixture that contains so much extra-profit-producing plant food at such low extra cost. IT PAYS!

NITROGEN

PHOSPHORIC ACID

POTASH

JOHN A. HOWARD, R.F.D. 3, Kinston, N.C., says: "In spite of dry weather and a late season, I made over \$300.00 an acre from tobacco with 3-8-8 FERTILIZER. Some of my plants were set as late as June. More potash is needed and extra potash won't hurt you."

W.H. HUMPHREY, R.F.D. 2, Richlands, N.C., says: "I had 100 acres in tobacco with 3-8-8 under the entire crop. Without the extra potash my crop would have dried up. I believe in plenty of potash. I am going to use 3-8-8 again this year."

TITUS G. MEWBORN, R.F.D. 1, La Grange, N.C., says: "I used 8% potash last year on tobacco and cotton and made very good crops. Extra potash paid me \$50.00 per acre on tobacco. The slight extra cost of the extra potash was very well worth the difference."

N. V. POTASH EXPORT MY., Inc., Royster Building, NORFOLK, VA.

FOR COTTON: To help your cotton prevent rust, control wilt and produce vigorous, healthy plants with less shedding, larger bolls that are easier to pick and better yields of uniform, high-quality lint — USE 3-8-8 COTTON FERTILIZER.

When you buy straight potash or potash in mixed fertilizer, it pays to make sure you get genuine NV POTASH—the same potash that has helped Southern farmers to produce better crops for more than 50 years.
