Mr. New RESPONSIBILITY

ASSISTANT to a special act of the 1937 State Legislature, advertisements will shortly begin to appear in national magazines and metropolitan newspapers of the East, Middle West and South inviting visitors and tourists to North Carolina, "THE VARIETY VACATIONLAND."

These messages will reach a total of nineteen million families. Thousands of business executives directing the manufacture and sale of products that could be made more profitably in North Carolina will be invited to visit the State and study our industrial advantages. The leading farm papers of the country will carry the story of North Carolina's opportunity for diversified and profitable farming and many well-to-do farmers will be seeking farmlands in North Carolina.

Let us put our house in order. Every citizen of the State and every community must cooperate if North Carolina is to reap the maximum results and the increased prosperity that will come from our advertising. Let our communities put on bright, clean faces. Let us beautify our highways. Let every North Carolinian greet visitors to the State with the spirit of hospitality for which North Carolina is justly famous. Let our Police Forces and other Peace Officers exact every effort to be friendly, courteous, and obliging to the "stranger" within our borders. Let each and every one of us assume our new responsibility to North Carolina's highest good.
