Higher Quality Raw Materials! More Efficient Manufacturing Lower Distribution Cost!

These All Combine to Give You Extra Values at No Extra Cost!

FROM the day of its introduction, the Firestone Standard Tire has more than lived up to its name by setting a new high standard of tire values. Hundreds of thousands of car owners have already bought it as their number one choice because they saw in it more value for their money.

"How does Firestone do it! How can they build so many extra value features into Firestone Standard Three and yet sell them at such low prices!" The answer is simple — Firestone controls better-

Three and yet self them at such low prices. The answer is simple — Firestone controls better-mailty rubber and cotton supplies at their source, teeps manufacturing costs low by efficient factory methods and selfs in such huge volume that distribution costs are held to a minimum.

Make no mistake about this! The Firestone Standard Tire gives you the blowout protection of Firestone's patented Gum-Dipping process. Every fiber of surry cord in every ply is saturated and costed with pure, liquid rubber which counteracts internal friction and heat that ordinarily destroy tire life. In scientifically designed tread gives greater non-stid protection and longer wear. And those we can know of Gum-Dipped cords under the tread and cord body into one basemble unit.
