MEN OF THE CHURCH CAN CONTROL CRIME

"Whether your community is one of love and fellowship or one of crime is determined by the activities of the men of that community who are religious leaders," said Robert C. Wells in his address to the Hallsville Men Sunday night. "The church is responsible for the community of righteousness or a community of crime. You men gathered here tonight can set the moral pace of your community and the time has come that you must set it for right. The increasing crime wave with so many of the criminals from the young people is a challenge that must be met by the Christian people and handled by them." Mr. Wells pointed out some statistics on crime and potential crime. Referring to Pharaoh, Mr. Wells brought out the fact that God was wanting the people on both sides. His own people and the people who were opposing Him, to realize that He was God.

"The community spirit must be builded around love," the speaker continued, "and my plea with you is that you will work together to build a Christian Community." "There is no better time or better place to start such a renewal of religion than in Hallsville Community and there is no better group to begin that work than this group of men."

Andrew Miller of the Hallsville Church directed the program. Ralph Miller will work up the September program. That meeting will be held on Sept. 5th.

When You Feel Stagnant (Constipated)

Take a dose or two of Black-Draught. Feel fresh for a good day's work. Work seems easier, life pleasanter, when you are really well—free from the bad feelings and dullness often attending constipation. For nearly a century, Black-Draught has helped to bring prompt, refreshing relief from constipation. Thousands of men and women rely on it.

BLACK-DRAUGHT A GOOD LAXATIVE

BOY SCOUT CAMP IS SUCCESSFUL

The Boy Scout Camp held for Troop 50 of Kenansville at Montford Point Beach last week was declared a grand success by those who were directing the activities. All members of the Troop are now Tenderfoot Scouts. The First Class award can be won in two months and one purpose of the camp was to get the boys to pass the 50-yard swim during this summer so as not as not to retard the work during the winter months. All of the boys passed the 50-yard swim. Scouts Hall and Lanier were not able to swim a stroke when they entered the camp Monday, but under the direction of Durwood Murray both were able to swim 50 yards Friday morning before leaving the camp. That is remarkable work which could have been accomplished only by the grit in the boy and the patience of Murray.

Scout Jones passed all the requirements for the second class that were scheduled for the camp and won a vacation on the last day when all camp restrictions were removed and he was given freedom. Several of the other Scouts passed much of the second class requirements, but none had enough to get the special favors that Jones had.

Scout Jones was the winner in the 25-yard dash for speed in swimming.

Perhaps the most outstanding work of the week that was done by Scout Lanier. He was working in tobacco during the week that the other Scouts passed their tenderfoot work, so he went to camp under the handicap of having his tenderfoot requirements to get off, and was unable to swim a stroke. He completed his tenderfoot requirements, went about as far as most of the boys on the second class work, and learned to swim, and swam his 50 yards. His attempt to make that 50 yards would command respect from any person. Henry Stevens, Amos Brinson and F. L. Goodman were standing at the starting line and Durwood Murray was at the finishing mark. Lanier started but when 8 yards from the start it seemed that he could get no forward progress at all. All three men said that he would never make it. But he kept trying. Inch by inch he moved toward the finishing line. When on about the 40 yard line he called to Murray that he could not make it. Murray sent out words of encouragement and he kept trying. When he reached Murray he was exhausted that Murray took him in his arms and brought him back thru the water to the starting point. He had won and what a victory it was. Hall who swam just before Lanier had trouble making the distance also, but with encouragement from Murray on the other end, he was able to keep on to the goal. The grit of those boys would thrill the coldest heart. To see those two win that race was worth the whole trip.

Scouts Stevens and Fonville of the Warsaw Troop 20 were camping at the point at the same time and were thrown with the Kenansville Scouts in Scout activities. Stevens who lacked three requirements on his Life Saving Badge, was able to pass them off, and is now in easy reach of his Eagle Badge.

Visitors while at the camp included: J. E. Jerritt, Mr. and Mrs. L. A. Beasley, Mr. and Mrs. Henry L. Stevens, and Amos Brinson.

The Scouts of Troop 50 will meet each Monday night at 7:30. Watch them. You will be hearing

more about them. We wish to express our appreciation to Mr. and Mrs. Z. E. Murrill owners of the Montford Point beach for their cooperation and help in the success of the camp. Mrs. Murrill helped with the swimming and encouraged the boys in the work. Mr. Murrill was kept away on some business but always friendly toward the boys, showing them a good time and took all of the boys out for a boat ride in his motor boat. They seem to be so interested in the boys and did all that they could to make the whole day there pleasant and beneficial. Brooks Price, life-saver at the Point, also rendered service to the boys in swimming suggestions.

Durwood Murray, assistant at the camp and director of the

Scouts while in the water, did honor to himself by swimming across the river Friday morning. Mrs. Murrill and Scout Jones accompanied him on the trip with a boat.

Red Coral Always Prized
It is red coral that is and always has been prized, not solely for jewelry and buttons, but as a charm to bring safety, health and secrets not revealed to the ordinary person. As ancient Gauls rushed headlong to battle, they trusted their safety to their swords, strength and the "magic" coral imbedded in their shields or helmets. Many Italians and Indians regard coral as protection against the "evil eye." The world's red coral comes from the reefs off the Mediterranean coast of Africa, says the Washington Post, and is obtained chiefly by Italians.

WV Firestone STANDARD TIRES
EXTRA SAFE

YOU GET EXTRA PROTECTION AGAINST BLOWOUTS—eight extra pounds of rubber are added to every 100 pounds of cord by the Firestone patented Gum-Dipping process. This counteracts internal friction and heat that ordinarily cause blowouts.

YOU GET EXTRA PROTECTION AGAINST PUNCTURES—because under the tread are two extra layers of Gum-Dipped cords.

YOU GET EXTRA PROTECTION AGAINST SKIDDING—because the tread is scientifically designed.

YOU GET LONGER NON-SKID MILEAGE because of the extra tough, long-wearing tread.

Before leaving on your vacation trip, join the Firestone SAVE A LIFE Campaign by equipping your car with a set of new Firestone Standard Tires—today's top tire value.

PRICES AS LOW AS \$6.40

DON'T RISK YOUR LIFE ON SMOOTH WORN TIRES!
DO YOU KNOW
THAT last year highway accidents cost the lives of more than 30,000 men, women and children?
THAT a million more were injured?
THAT more than 40,000 of these deaths and injuries were caused directly by punctures, blowouts and skidding due to unsafe tires?
