E OF ADMINISTRATION

Lint from interior bolls will add
but little to the yield, while on
the other hand if tends to lower
the qutlity of the cotton as a
whole, Moore pointed out.
Moreover, it is hard to get good,
pure seed from cotton in which
lint from bad bolls has been mixed with that from good bolls.

ed with that from good bolls. Seed for planting should be obday qualified as administrator of tained either from a reliable pro-the estate of E. D. Cottle, deceas-ducer or only from the best field

When seed is to be saved for claims against said estate to file planting, the elevators and gin them with the undersigned with-stands should be cleaned thoroly and the seed should be caught

This will keep the seed from being mixed with other varieties ginnings, Moore explained.

Planting seed should be stored loosely in a dry, well ventilated

Cotton should not be picked when wet or green, he went on, but if it is picked while damp from rain or dew, it should be dried before it is run through the

After heway or prolonged rains, bolls should be tllowed to bleach
