WELL, Well, Well! Do you know what your columnist has done and done now, folks? Given up the idea of big-game hunting and started announcing over the radio. Yep, went right up to the studio of WFTC in Kinston last Sunday and started talking into a big, bad microphone and didn't even get scared—much! Let you in on a little secret if you won't tell anyone. He didn't realize that you could talk into but one side of the gadget, and stepped on everybody's feet trying to get to that side. But don't mention it. Might embarrass him. And another thing—that frog that kept jumping up in his throat must have given his voice some peculiar quality, because they asked him to come back next Sunday, but don't tell anyone about that either; they might tune in.

TO SUPREME COURT

Senator Hugo LaFayette Black of Alabama, whose nomination to fill the Supreme court vacancy created by the retirement of Associate Justice Willis Van Devanter, was presented to the senate by President Roosevelt. Black, a vigorous New Deal Democrat, is fifty-one.

Arrangements for a 9-cent government loan available to farmers will be made on or before September 15, according to word from Washington received at State College.

To qualify for the fall 9 cents a pound, said E. Y. Floyd, of State College, cotton must be 7-8 inch middling or better.

Cotton with a 113-16 inch staple and middling or better grade will qualify for 8 cents a pound, while cotton 7-8 inch in staple but under middling grade will be eligible for 7 3-4 cents a pound.

However, no loans will be made on 7-8 inch cotton too low in grade to be delivered on contract under regulations of the New York and New Orleans cotton exchanges, or on 13-16 inch cotton under middling grade.

The loans will bear interest at 4 per cent and mature on July 31, 1938. To receive a loan, a grower must agree to comply with the 1938 agricultural conservation program.

Floyd pointed out that the loans will enable farmers to hold their cotton for better prices rather than have to dump it on the market as soon as it is harvested.

By spreading the sales over a longer period, he continued, the market should hold up better than if this season's crop were dumped on the market as fast as harvested.

The cotton price adjustment payment also offered will be similar to that of 1935, except that the limit has been raised from 2 up to 3 cents a pound.

The amount to be paid on each bale will be the difference between 12 cents a pound and the average price of 7-8 inch middling cotton on the day the bale is sold, the adjustment payment not to exceed 3 cents a pound.

Aladdin

MANTLE LAMP COAL OIL

Saves EYESIGHT MONEY TROUBLE

Why? Because the light the Aladdin gives is surprisingly ample and abundant in quantity and is of a quality closely approaching sunlight, the kind of light nature provided for the human eye. It saves you money, too, because it is so economical of fuel, and its splendid light banishes trouble in reading, writing, sewing, studying, or any evening's work or pleasure. Aladdin light, its simplicity, its safety, its economy, its beauty, and its decorative and practical features must, however, be seen to be appreciated. If you need more and better light, come in at your first opportunity—we'll be glad to demonstrate one to you without the slightest obligation.

With The MOVIES IN DUPLIN

DUPLIN—WARSAW

One of the biggest sets ever built for a motion picture is the prison set used for the First National production, "San Quentin," in which Pat O'Brien and Humphrey Bogart are starred and which comes to the Duplin Theatre on Monday, September 14th.

Situated on a 30-acre ranch across the Los Angeles river from the studio, the setting, a reproduction of the yard at the famous California penitentiary, covers 112,000 square feet.

Running away from love is all right if you're sure that you're being followed, and Gloria Stuart acts upon this sage advice as the lovely fugitive in "The Lady Escapes," Twentieth Century-Fox romantic comedy, opening next Tuesday at the Duplin Theatre, with Michael Whalen in what he thinks is the role of the pursuer.

When their marital life turns out to be a martial life, with the husband holding the wife in his arms only to prevent her from socking him, the charming couple agree to disagree, but soon find they can't escape from love.

Besides the vase-throwing spouse finds that she has a naturally affectionate and gregarious disposition, and refuses to release her husband-target until he finds a second husband for her.

The Samuel Goldwyn production of "Stella Dallas," with Barbara Stanwyck in the title role, the attraction next Thursday and Friday at the Duplin Theatre, is a tense drama of a mother who sacrifices her own right to happiness for the sake of her daughter. It gives Miss Stanwyck the strongest role in her entire career and one which was coveted by every leading actress in Hollywood.

Co-starred with Miss Stanwyck is John Boles with a distinguished supporting cast, including Anne Shirley, Alan Hale, Barbara O'Neil, Al Shean of the famous team of Gallagher and Shean and Tim Holt, son of Jack Holt.

"Stella Dallas" is without doubt one of the most poignant and gripping stories ever to be filmed. It was originally a best-selling novel by Olive Higgins Prouty, later a success on the Broadway stage and as a silent picture produced by Goldwyn twelve years ago, scored a sensational hit.
