#### Prices Turn Sky High on Wilson Tobacco Mart

The Wilson tobacco market turned its prices skyward last week and held all grades to levels not exceeded in many years, as the concluding days of operations marked an average of \$24.73. Thousands of tobacco farmers last week from all eastern counties saw their product wend its way to new heights, as the five sets of buyers seemed to freely slash their pocketbooks and let fly a gilded stream and steady flow of the "where-with" that all farmers receive from displaying their leaf before the strongest competitive force in the world. Tobacco sold up to \$75.00 per hundred. Both local and for distant customers of Wilson's market last week had high individual averages for their leaf, and homeward bound each day carried the glad tidings of the high prices in Wilson. The good news has been delivered to every tobacco growing corner. The Wilson market is now topping the list and is seeking still greater honors, as the 1937 season progresses. Everything is working in a most harmonious manner and warehousemen, buyers, and farmers are pulling one for all, and all for one. There are no block sales in Wilson over the weekend, and

this week sales are coming up to all expectations for the high dollar. Warehousemen in Wilson advise all farmers to bring their tobacco to this better market now.

#### Hamer Resigns as Scout Head

George Hamer, who has been Scout executive of the Tuscarora Council of Boy Scouts for the past two and a half years, has resigned that position to accept work as a Scout Executive in St. Petersburg, Fla. He plans to stay in Goldsboro until a successor has been chosen. The Tuscarora Council now has 31 troops of Scouts with three troops in Duplin County, Warsaw, Kenansville, and Rosehill. Mr. Hamer will conduct the October courts of honor, and will direct the circus in Goldsboro on Oct. 15th.

### American Oil Company Again makes Gas History with

# Greatest AMOCO-GAS

The history of America is the story of achievement. The story of men who dreamed great dreams... and then made these dreams come true.

This American Spirit, which made the U. S. the greatest nation in the world, has been one of the major factors in the success of the American Oil Company. This company revolutionized the automotive industry—made possible today's high compression motor—by introducing Amoco-Gas, the first and original special motor fuel.

Amoco-Gas, for years, has held more world's records than any other motor fuel. But science dreamed of an even greater Amoco-Gas. So we spent millions of dollars... new processes were invented and patented... new equipment perfected... the greatest and most modern refining unit in the world was made even more modern.

Result: the new Amoco-Gas is the greatest in our history! Literally, better than the world's best! Try it! You'll get a new driving thrill—and real economy!
