Magnolia P. T. A. Holds 2nd Meet Of School Year

The Parent-Teacher Association of Magnolia High School held its second meeting of the present school term last Monday night, October 4th. The meeting was called to order by the president, Mrs. N. T. Pickett. After the minutes were read, reports were given by the various committees. At this time, it was announced that a sum had been raised for the construction of the gymnasium. This leaves a sum to be collected before the work on the building will begin. The people of the community were urged to pay their pledges as early as possible.

An outline of the program for the year in booklet form was distributed to each member of the association by the chairman of the program committee, Mrs. Kenneth Taylor. The topic of "Education" indicates that there is some valuable and interesting information in store for the parents and teachers who are interested in the well-rounded development of the child. It is hoped that there will be a steady increase in the attendance at these programs.

The program for October centered around the topic "The Growing Community." Several ways were suggested as to how to promote a growing community. Then followed a general discussion in which the participants applied these suggestions to the particular vicinity. Even though there is much room for the improvement of existing conditions here, it was noted that progress really is being made.

By checking the room attendance, it was found that the high grade was the half-holiday, which is given to the room having the most parents present at a P. T. A. meeting. The meeting then adjourned until the next meeting which will be held November 1, 1937.
