Presbyterians Launch Drive

A campaign ending on Feb. 6th has been launched by the Presbyterian church for the purpose of raising funds for the mission work in the six fields served by the church. Special emphasis is being put on the need in China at this time. A statement from headquarters in Nashville says: "If someone had deliberately planned a war in China to interfere most directly with China Missions of the Presbyterian Church in the United States, he could not have accomplished this more thoroughly than has been done by the warring forces of the Far East." During the Week of Prayer and Self Denial, January 30th to February 6th, we hope to raise \$225,000. There has been about \$100,000 damage done to our work there in a material way which will have to be rebuilt before we can go on in the most efficient way. We hope that all the Presbyterians in the State under the direction of Rev. Norman Johnson of Rocky Mount, will rally to the cause and really make this a season of sacrifice and prayer.

IT'S those little things that now there is a garden in the corner of the package or two of seeds, to forego that pleasure. son is the new pure seed, which none of them are about, but one thing all seem to understand is that this year every merchant sells seeds will have to purchase \$10 license, and as one cross-store merchant said to "Count Talk" this week:

"I ain't workin' it. We sold mostly for an accommodation. We couldn't make \$10 profit on a bag of seeds here in this store this year's time to save our lives. We've already cancelled our order for seeds for this year."

Asked what the garden in the neighborhood would do in their seeds they could only say: "Probably buy them in the large towns, where merchants might find it profitable to pay the \$1 license, or order them direct from the seed houses. Just another law!"

COILLARD stealing is the harmless sport of many young people bent on an evening of the ordinary entertainment these days. Just what they get out of the hard stealing is hard to say, they do get some extra in bracing night air, thing to talk about next.

THE planting of tobacco beds one of the most absorbing occupations for the county right now. The mild weather following the holidays this year has probably made work on the beds begin a little early. Drive up to almost any farm house, and ask where the man of the family is, and they say, "Planting the tobacco bed."

DISCING, and plowing lands for this year's crops, though not as advanced as it will be in a few weeks is already under way, one will note in driving through the county.

DRIVING early this week from Calypso, through to Beantancus, and from there to Summerlin's Cross Roads, and on, noted a good bit of building. Some of it is entirely new construction, homes, outbuildings, tobacco barns. Other is remodeling, and rebuilding on older dwellings and outhouses. Looks good for the county, money going into permanent home and farm improvements.

AT Beantancus, stopped for a few moment's chat with Miss Annie Swinson, who writes Bear Marsh news for The Duplin Times. Miss Annie always has a smile, for those who visit her, and she is always ready to get right into things. It will be of interest to people in her neighborhood to know that she is also soliciting subscriptions to The TIMES now, as well as writing the news from Bear Marsh. Miss Annie will appreciate it if you will remember her when it is time to renew for The TIMES, if you live in her neighborhood.

MISS Mildred Summerlin, is the new correspondent for The TIMES at Summerlin's Cross Roads. Miss Summerlin will also take subscriptions to The TIMES in her neighborhood. —S. P. M.

"I GROW TOBACCO"

I HAD A FINE TOBACCO CROP LAST YEAR—MY BEST YET. AND THE CAMEL PEOPLE BOUGHT THE CHOICE PART, PAID ME MORE THAN I EVER GOT BEFORE. SO I KNOW THAT CAMELS USE FINER, MORE EXPENSIVE TOBACCO. CAMELS ARE THE CIGARETTE I SMOKE MYSELF. AND MOST PLANTERS FAVOR CAMELS 'CAUSE A MAN WHO GROWS TOBACCO KNOWS TOBACCO SURE ENOUGH.

THE men who really know tobacco—the growers themselves—pick Camels as their favorite cigarette, according to George M. Crumback. If you are not already a Camel smoker, begin now to enjoy Camels—the cigarette that is made from finer, MORE EXPENSIVE TOBACCO, Turkish and Domestic.

MR. GEORGE M. CRUMBACK,
successful tobacco planter.
